ANNEXURE TO THE NOTICE

EXPLANATORY STATEMENT FOR RESOLUTION NUMBERS 4, 5, 6, 7, 8, 9 & 10 OF THE NOTICE

As required by Section 102 of the Act, the following explanatory statement sets out all material facts relating to the special businesses mentioned under resolutions Nos. 4, 5, 6, 7, 8, 9 & 10 of the accompanying Notice.

ITEM NO 4 – ORDINARY RESOLUTION

Ratification of Cost Auditor's Remuneration FY 2024-25:

As per the provisions of Section 148 of the Act read with the Companies (Cost Records and Audit) Rules, 2014 ("the Rules"), as amended from time to time, the Company is required to have an audit of its cost records conducted by a cost accountant in practice for products covered under the Companies (Cost Records and Audit) Rules, 2014. The Board, based on the recommendation of the Audit Committee, has approved the re-appointment of M/s. Kishore Bhatia and Associates (Firm registration number 00294), as the Cost Auditors to conduct the audit of the cost records of the Company, for the financial year ending March 31, 2025, at a remuneration of Rs. 1,00,000/- (Rupees One Lakhs) plus applicable taxes and reimbursement of reasonable out of-pocket expenses.

In accordance with Section 148(3) of the Act, read with the Companies (Audit and Auditors) Rules, 2014, the remuneration payable to the Cost Auditors, as recommended by the Audit Committee and approved by the Board of Directors, is required to be ratified by the Members of the Company. Accordingly, the consent of the Members is sought for passing an Ordinary Resolution as set out in Item No. 4 of the Notice for ratification of the remuneration payable to the Cost Auditors, for the financial year ending March 31, 2025.

Board Recommendation:

Thus the Board of Directors recommends the Ordinary Resolution as set out at Item No. 4 of the Notice relating to the ratification of the remuneration payable to the Cost Auditors for the financial year 2024-2025 for approval of the Members as an Ordinary Resolution.

Disclosure of Interest:

None of the Directors/Key Managerial Personnel of the Company/their relatives is, in any way, concerned or interested, financially or otherwise in the resolution set out at Item No. 4 of the Notice.

None of the other Directors and Key Managerial Personnel of the Company and their respective relatives is, in any way, concerned or interested, in the Resolutions set out at Item No. 6 of the Notice.

Further details and current directorships as per Regulation 26 (4) and 36(3) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and Para 1.2.5 of Secretarial Standard on General Meetings of the above Directors are provided in the Annexure to this Notice.

ITEM NO. 7 – ORDINARY RESOLUTION

Approval of Material Related Party Transaction(s) between GeeCee Ventures Limited (hereinafter referred to as the “Company”) and its related parties to be valid from 40th Annual General Meeting:

As per the provisions of Section 188 of the Companies Act, 2013 (“Act”), transactions with related parties which are on an arm’s length basis and in the ordinary course of business, are exempted from the obligation of obtaining prior approval of members. However, as per the provisions of Regulation 23(4) of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 (“SEBI Listing Regulations”),

such transactions, if material, requires the approval of members through a resolution, notwithstanding the fact that the same are on an arm's length basis and in the ordinary course of business. With effect from April 01, 2022, Regulation 23 of SEBI Listing Regulations, 2015 mandates prior approval of the members through ordinary resolution for all 'Material Related Party Transactions'. For this purpose, a Related Party Transaction will be considered 'material' if the transaction(s) to be entered into individually or taken together with previous transactions during a financial year exceeds Rs. 1,000 Crore or 10% of the annual consolidated turnover of the Company as per the last audited financial statements of the Company, whichever is lower.

The Company had in the past provided a similar loan facility in favour of the related parties with the approval of the audit committee and the Board. However as Company proposes to enter into certain business transactions with some of its related parties during the Year 2024-2025 and as the value of such transactions is estimated to exceed the revised threshold limit of material related party transactions within the meaning of amended Regulation 23(1) of the Listing Regulations w.e.f 1st April, 2022 i.e. 10% of the annual consolidated turnover prior approval of the members is required.

Further the members are hereby informed that approval taken for material related party transactions at 39th annual general meeting shall be valid upto 40th annual general meeting, it is found appropriate for the company to obtain approval from the members of the Company for the same transactions for another period of 1 (one year) and to be valid upto next annual general meeting or 15 (fifteen) months instead of financial year as per SEBI Circular SEBI/HO/CFD/CMD1/CIR/P/2022/47 dated April 08, 2022 and thus approval for same transactions with certain modification(s)/ alteration(s) is being proposed to the members all over again as a fresh approval.

Thus in views of the above, below are the list of proposed transactions seeking approval from the members:

Sr. No.	Name of the Related Parties	Nature of transactions
1.	Singularity Holdings Limited	Rendering / Availing revolving Loan Facility (Fixed Interest rate)
2.	Winro Commercial (India) Ltd	
3.	Saraswati Commercial (India) Limited	
4.	GeeCee Business Private Limited	
5.	GeeCee Comtrade LLP	Rendering revolving Loan Facility (Fixed Interest Rate)
6.	GeeCee Nirmaan LLP	

The Company has in place a balanced and structured policy and process for approval of Related Party Transactions. The Policy provides the details required to be provided to the Audit Committee for the purpose of review of such transactions and grant their approval for the proposed transactions. A justification for each and every related party transaction is provided to the Audit Committee which enables them to arrive at the right decisions. Additionally an update on the actual related party transactions entered during every quarter is provided to the Audit Committee. Approval of the Members of the Company is therefore required for Item No. 7 in terms of Regulation 23 of the SEBI Listing Regulations by way of passing of an Ordinary Resolutions for approval to the aforesaid Material Related Party Transactions to be entered from the ensuing 40th Annual General Meeting.

The Audit Committee, comprising of all the independent directors, of the Company has granted omnibus approval to the related party transactions entered/proposed to be entered into by the Company. Since all the transactions between the Company and the parties as provided in the table above will be entered in the ordinary course of business and at arms' length basis, the provisions of Sec 188 (1) of the Companies Act, 2013 and the Rules made thereunder are not applicable on transactions between these entities.

The aforesaid transactions in aggregate at individual level are expected to exceed 10% of the annual consolidated turnover; these transactions are therefore considered as material related party transactions as per Listing Regulations. Thus in terms of Regulation 23 of Listing Regulations, the approval of members is required for the aforementioned material related party transactions entered /to be entered between the Company and the parties as provided in table above from 40th Annual General Meeting till the next Annual General Meeting of the Company or for a period of fifteen months, whichever is earlier.

Further, pursuant to Regulation 23(7) of Listing Regulations, in respect of voting on this resolution, all the related parties shall abstain from voting, irrespective of whether the entity or person is a party to the particular transaction or not.

The members may note that, as at date no transactions have been entered into between the related parties as set out at Item No. 7

Board Recommendation:

Based on the recommendations of the Audit Committee, the Board of Directors recommends the Ordinary Resolution as set out at Item No. 7 of the Notice relating, to approval of Material Related Party Transaction(s) between the GeeCee Ventures Limited (hereinafter referred to as the "Company") and its related parties to be valid from 40th Annual General Meeting as Ordinary Resolution.

Nature of Concern or Interest of Directors:

Mr. Gaurav Shyamsukha, Mr. Rohit Ashwin Kothari, Mr. Ashwin Kumar Kothari and Mr. Harisingh Shyamsukha being the members of promoter and promoter group & Mr. SureshKumar Vasudevan Vazhathara Pillai being KMP of the Company are deemed to be interested in the resolution and thus will not on vote on this resolution.

The Members may note that in terms of the provisions of the SEBI Listing Regulations, no Related Party shall vote to approve the Ordinary Resolution set forth at Item No.7 of the Notice, whether the entity is a Related Party to the particular transaction or not.

ITEM NO. 08 & 09- ORDINARY RESOLUTION**Approval of Material Related Party Transaction(s) of GeeCee Business Private Limited and GeeCee Fincap Limited, a subsidiary with certain identified Related Parties of the Company to be valid from 40th Annual General Meeting:**

As per the provisions of Section 188 of the Companies Act, 2013 ("Act"), transactions with related parties which are on an arm's length basis and in the ordinary course of business, are exempted from the obligation of obtaining prior approval of members. However, as per the provisions of Regulation 23(4) of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI Listing Regulations"), such transactions, if material, requires the approval of members through a resolution, notwithstanding the fact that the same are on an arm's length basis and in the ordinary course of business. With effect from April 01, 2022, Regulation 23 of SEBI Listing Regulations, 2015 mandates prior approval of the members through ordinary resolution for all 'Material Related Party Transactions. For this purpose, a Related Party Transaction will be considered 'material' if the transaction(s) to be entered into individually or taken together with previous transactions during a financial year exceeds Rs. 1,000 Crore or 10% of the annual consolidated turnover of the Company as per the last audited financial statements of the Company, whichever is lower.

Further as per Regulation 23 (4), if transaction to which the subsidiary of the listed entity is a party and the listed entity is not a party and if the transaction exceeds the threshold limits of material related party transaction than those transactions will be required to be approved by the shareholders of the listed entity. Thus as 2 subsidiaries of the Company seems to enter into material related party transactions with the related parties of this Company, it is required for the Company to obtain shareholders' approval for such transaction.

As per SEBI Circular SEBI/HO/CFD/CMD1/CIR/P/2022/47 dated April 08, 2022 as the approval for related party transaction taken from the shareholders at this AGM shall remain valid until the next AGM or for a period of 15 months whichever is earlier, below transactions to be entered into between a subsidiary i.e. GeeCee Business Private Limited and a wholly owned subsidiary i.e. GeeCee Fincap Limited with their respective related parties is being proposed to the members of this Company for their approval.

Material Related Party Transactions proposed to be entered by Subsidiaries with related parties:

Board Recommendation

Based on the recommendations of the Audit Committee, the Board of Directors recommends the Ordinary Resolution as set out at Item No. 08 & 09 of the Notice relating, to approval of Material Related Party Transaction(s) between the GeeCee Ventures Limited (hereinafter referred to as the "Company") and its related parties to be valid from 40th Annual General Meeting as Ordinary Resolution.

Nature of Concern or Interest of Directors

Mr. Gaurav Shyamsukha, Mr. Rohit Ashwin Kothari, Mr. Ashwin Kumar Kothari and Mr. Harisingh Shyamsukha being the members of promoter and promoter group and Mr. SureshKumar Vasudevan Vazhathara Pillai being KMP of the Company are deemed to be interested in the resolution and thus will not on vote on this resolution.

The Members may note that in terms of the provisions of the SEBI Listing Regulations, no Related Party shall vote to approve the Ordinary Resolution set forth at Item No.08 & 09 of the Notice, whether the entity is a Related Party to the particular transaction or not

ITEM NO. 10- ORDINARY RESOLUTION

Approval for payment of Remuneration and other facilities to Mr. Harisingh Shyamsukha as the Senior President – Business Strategy :

The provisions of Section 188(1) of the Companies Act, 2013 that govern the Related Party Transactions, require that for entering into any contract or arrangement as mentioned therein with the related party, the Company must obtain approval of the Audit Committee and the Board of Directors and in case of the value of the transactions exceeds the threshold limits as mentioned in Rule 15(3) of the Companies (Meeting of the Board and its Powers) Rules, 2014, (as amended) prior approval of Members by an Ordinary Resolution needs to be obtained.

Section 188(1)(f) of the Companies Act, 2013 provides for the Related Party's appointment to any office or place of profit in the Company, its Subsidiary Company or Associate Company. Further, the Company is required to obtain the prior approval of Members for appointment to any office or place of profit in the Company in case the monthly Remuneration to be paid exceeds Rs. 2,50,000 (Rupees Two Lacs and Fifty Thousand Only).

In this regard, Mr. Harisingh Shyamsukha (Promoter of the Company and also father of Mr. Gaurav Shyamsukha- Whole Time Director) who had served the Company as Promoter since 40 years and as the Whole Time Director for more than 30 years had stepped down as Director of the Company w.e.f. 07th August, 2024 and was appointed by the Board of Directors as the Senior President - Business Strategy w.e.f 09th August, 2024. Thus being immediate relative of the Mr. Gaurav Shyamsukha and being appointed as the employee of the Company he will be holding office or place of profit in the Company.

Prior to the appointment by the Board the appointment and remuneration of Mr. Harisingh Shyamsukha was recommended by the Nomination and Remuneration Committee (NRC) of the Board at their meeting held on 08th August, 2024. The NRC Committee after taking into account rich and varied experience of Mr. Harisingh Shyamsukha and dedication towards the growth of the Company had provided their consent for his appointment

subject to the approval of the Board. The NRC committee had approved remuneration of Rs. 5,39,063/- (Rupees Five Lakhs Thirty-Nine Thousand and Sixty-Three Only) per month together with other benefits, perquisites, allowances, amenities and facilities in accordance with the Policy of the Company, w.e.f. 09th August, 2024.

Brief Profile of Mr. Harisingh Shyamsukha:

Name	Mr. Harisingh Shyamsukha
Date of Birth	15/10/1949
Qualification	Chemical Engineer
Brief Profile	Senior President – Business Strategy - Responsible for senior leadership to strategically manage the company.
Expertise in specific functional areas	Having a career span over 47 years in Chemical Manufacturing. Has skills that involve the ability to think critically, analyze data, and make decisions based on a clear understanding of the business landscape, market trends, and competitive pressures. Also have experience of more than 31 years in Marketing, Investment and Trading.

Further Second proviso to Section 188(1) of the Companies Act, 2013 provides that no related party shall vote to approve the related party transaction in which he is interested and thus no related party will vote on the Resolution No. 10 of the Notice. The Audit Committee and the Board of Directors of the Company have approved these Related Party Transactions.

Board Recommendation

Since the proposed Remuneration exceeds the limit prescribed under the Section 188(1)(f) of the Companies Act, 2013, the Board of Directors recommends the Ordinary Resolution as set out at Item No. 10 of the Notice for the approval of Members of the Company as an Ordinary Resolution.

Nature of Concern or Interest of Directors

Except Mr. Gaurav Shyamsukha and Mr. Rohit Ashwin Kothari being the members of promoter and promoter group and Mr. SureshKumar Vasudevan Vazhathara Pillai being KMP of the Company no other Director or Key Managerial Personnel of the Company or their relatives are in any way concerned or interested financially or otherwise in the Resolution No. 10 of the Notice.

11. PERFORMANCE EVALUATION OF THE BOARD, ITS COMMITTEES, DIRECTORS AND CHAIRMAN :

Pursuant to the provisions of the Companies Act, 2013, and the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, the Board has carried out an annual evaluation of its own performance and that of its Committees as well as performance of the Directors individually. Feedback was sought by way of a structured questionnaire covering various aspects of the Board's functioning such as adequacy of the composition of the Board and its Committees, Board culture, execution and performance of specific duties, obligations and governance and the evaluation was carried out based on responses received from the Director.

In line with the corporate governance guidelines of your company, annual performance evaluation was conducted for all the Board Members, for Individual Director including Independent Directors, its Committees and Chairman of the Board. This evaluation was led by the Board as a whole on the basis of the parameters provided in the evaluation framework as approved by the Nomination and Remuneration Committee and the Board of Director. The Board evaluation framework has been designed in compliance with the requirements under the Companies Act, 2013 and the Listing Regulations, and in accordance with the Guidance Note on Board Evaluation issued by SEBI in January 2017. The Board evaluation was conducted through questionnaire designed with qualitative parameters and feedback based on ratings.

Evaluation of the Board was based on criteria's such as composition, skills/expertise, basis of appointment, frequency of the meetings, work atmosphere, reviewing the performance of the company and role of the Board, Board communication and relationships, functioning of Board Committees, adequacy and timeliness of the Agenda and Minutes circulated, comprehensiveness of the discussions and constructive functioning of the Committees, review of performance of Executive Directors, Grievance redressal mechanism, monitoring governance and compliance issues.

Evaluation of Committees was based on criteria's such as composition, adequate independence of each Committee, frequency of meetings, effective interactions and decisions, effective participation in the decision making, awareness of roles, responsibilities and terms of reference of each of the committee, and contribution to the decisions of the Board, etc.

Evaluation of Directors was based on criteria's such as qualification & experience, participation and contribution in Board and Committee meetings, external knowledge for discussion, attendance at the meetings of the Board, views on discussion made at the meetings of the Board and the committee, level of confidentiality maintained at each level of management, etc.

In view of the above the Company conducted a formal Board Effectiveness Review as a part of its efforts to evaluate, identify improvements and thus enhance the effectiveness of the Board of Directors, its Committees and individual director.

In a separate meeting of Independent Directors held on March 12, 2024 performance of non-independent directors, performance of the board as a whole and performance of the chairperson of the Company was evaluated, and the evaluation report was placed at the Board Meeting held on May 21, 2024.

The performance evaluation of each of Board, its committees and the Individual Directors for the year 2023-2024 was done at the meeting of the Board held on May 21, 2024 and the evaluation report was placed before the Board of Directors at their meeting held subsequently after the meeting at which the evaluation was conducted. Performance evaluation of independent directors was done by the entire board, excluding the independent directors being evaluated.

The Directors were satisfied with the evaluation results, which reflected the overall engagement of the Individual Directors, the Board as a whole and its Committees with the Company.

12. COMPANY'S POLICY ON DIRECTORS' APPOINTMENT AND REMUNERATION:

The Board of Directors has framed a policy for selection and appointment of Directors including determining qualifications and independence of a Director, Key Managerial Personnel (KMP), Senior Management Personnel and their remuneration as part of its role and other matters provided under Section 178(3) of the Companies Act, 2013.

Pursuant to Section 134(3) of the Companies Act, 2013, the nomination and remuneration policy of the Company which lays down the criteria for determining qualifications, competencies, positive attributes and independence for appointment of Directors and policies of the Company relating to remuneration of Directors, KMP and other employees was approved by the Board of Directors at their meeting held on March 30, 2015 which was amended by the Board and the Nomination and Remuneration Committee at their meeting held on May 22, 2019.

The Company has adopted a Remuneration Policy for the Directors, Key Managerial Personnel and other employees. The philosophy for remuneration of Directors, Key Managerial Personnel and all other employees of the Company is based on the commitment of fostering a culture of leadership with trust.

The Remuneration Policy of the Company is aligned to this philosophy.

The Nomination and Remuneration Committee has considered the following factors while formulating the Policy:

- i. The level and composition of remuneration is reasonable and sufficient to attract, retain and motivate Directors of the quality required to run the Company successfully;
- ii. Relationship of remuneration to performance is clear and meets appropriate performance benchmarks; and
- iii. Remuneration to Directors, Key Managerial Personnel and Senior Management involves a balance between fixed and incentive pay reflecting short and long-term performance objectives appropriate to the working of the Company and its goals.

It is affirmed that the remuneration paid to Directors, Key Managerial Personnel and all other employees is as per the Remuneration Policy of the Company. Details of the Remuneration Policy are given in the Corporate Governance Report. The full text of the policy can also be accessed on the website of the Company at <https://www.geeceeventures.com/uploads/Investor-relations/pdfs/nomination-and-remuneration-policy--amended-22052019-1459.pdf>

The Company continues to make efforts to reduce and optimize the use of energy consumption by installing energy monitoring and conservation systems to monitor usage, minimize wastage and increase overall efficiency at every stage of power consumption.

The Company is also emphasizing on utilizing natural resources of energy in its business activity.

Through better selection of sites, design, construction, operation, maintenance, i.e. the complete building life cycle, green buildings provide benefits such as:

- a. increased resource efficiency (energy, water, and materials)
- b. reducing the impact on human health and the environment

Steps taken for energy conservation:

- i. GGBS a waste of the steel plant is mixed with Ordinary Portland Cement (OPC) in the ratio of 40 to 50 % in all of the construction sites which reduces the usage of cement and increases the consumption of the waste without compromising with the quality of the end product.
 - ii. Bringing Autoclaved Aerated Concrete or AAC blocks to use at all construction sites. AAC blocks are green-certified building materials and have such properties that further facilitate the energy efficiency and eco-friendly approach of construction.
 - iii. Soil erosion is protected by top soil conservation and the same is thereafter used for gardening purpose.
 - iv. Rain water harvesting done at all project either by collection tanks are made available or recharging ground water through re-charge pit based on the site condition
 - v. In majority of the projects STP plants are installed for treating sewage and effluent at the same time. This plant proficiently drains out water from sewage and effluents, making it usable for other application such as gardening, farming and flushing the toilets. This enables to aid 40% of the total water requirement.
 - vi. Installation of LED lamps for common areas and pathways.
 - vii. Adoption of efficient lighting technology including use of timers and/or sensors for operating the light fixtures in certain areas.
 - viii. Using high efficiency pumps, motors and other equipments / machineries;
2. Steps Taken by the Company for Utilizing Alternate Sources of Energy:

Solar energy is the alternate source of energy integrated into our projects and their operations. In almost all of its projects either solar water heater is provided or solar energy panel is used for generating hot water or electricity for the members of the society depending on the feasibility of the project. Solar energy is utilized to meet the energy demands of the common areas of our developments. Thus Company makes all of its attempts to switch to green technologies in order to minimize emissions and waste generation.

3. Capital Investment on Energy Conservation Equipment:

During the year total capital investment of upto **₹ 15 lakhs** was made, of which **₹ 13 lakhs** was spent towards purchase of Anti - Smog equipment for pollution control, Sprinklers, Green net for dust control and **₹ 2 lakhs** was spent on plantation of trees and landscaping and garden.

B. Technology Absorption

The Company is continuously taking efforts for improvement in existing or the development/ deployment of new construction technologies to speed up the process and make construction more efficient. The Company makes in depth planning of construction activities/ procedures which in turn

results in stable levels of quality, shorter time lines and reduced consumptions of man and materials at site

Some of the initiatives taken by the Company for technology absorption are:

- Complete or partial automation of activities
- Installation of Solar Panels and usage of solar energy for lighting in the common areas, parking areas and streets and water heating requirements of the residential buildings
- Installation of STP plants for treating sewage waste for re use
- Installation of low-flow fixtures for reduction of water consumption
- Recycling water within the development area to reduce dependency on external water source

The Company periodically surveys to identify new machines, materials and methodologies and implements them if found to be effective in the projects.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

GLOBAL ECONOMY

The global economy faced a complex scenario characterized by persistent inflation, geopolitical tensions, tightening monetary policies, and ongoing pandemic repercussions, all contributing to a decline in growth. According to the World Economic Output (WEO) update, global growth slowed from 3.5% in CY 2022 to 3.0% in CY 2023. Central Banks raised interest rates in CY2023 to counter inflationary pressures. Despite challenges such as supply chain disruptions and elevated inflation, major economies received support from fiscal stimulus, monetary policies, trade agreements, international aid, green initiatives, and technological investments.

The International Monetary Fund (IMF) projects moderate and stable growth for CY2024 & CY2025 at 3.2%. This expectation reflects sluggish economic activity, primarily attributed to a slowdown in advanced economies. The growth rate of these economies, which stood at 1.6% in CY2023, is anticipated to remain sluggish at 1.7% to 1.8% over the next two years due to policy tightening, financial sector turmoil, high inflation, the ongoing conflict between Israel and Gaza, and the lingering effects of four years of the COVID pandemic.

In advanced economies, growth rates are forecasted to reach 1.7% in CY2024, improving to 1.8% in CY2025. Global inflation is projected to decrease from an estimated 6.8% in CY2023 to 5.9% in CY2024 and further to 4.5% in CY2025, primarily due to accelerated disinflation in advanced economies. Declining inflationary pressures vary by country. The IMF forecasts a 2.3% decline in oil prices in CY2024, while non-fuel commodity prices are expected to drop by 0.9%. Heightened tensions in the Gaza-Israel region, which accounts for approximately 35% of global oil exports, could lead to supply shocks if the conflict escalates. Continued trade distortions and geopolitical fragmentation are anticipated to persist, exerting pressure on global trade levels.

INDIAN ECONOMY

The Indian economy continues to strengthen despite the global headwinds. As per the First Advance Estimates (FAE) released by the National Statistical Office (NSO), real Gross Domestic Product (GDP) is expected to grow by 7.3%, in FY2023-24.

The Reserve Bank of India (RBI) has kept the Repo Rate unchanged since February 2023 to manage retail inflation within its target range, which has consistently stayed above the 4% mark. In July 2023, Consumer Price Index (CPI) inflation rose to 7.44%, the highest level seen since September 2022. The CPI has since eased and is hovering around 5%.

The World Bank expects India to grow by 6.6% in Financial Year 2024-25 after an estimated growth of 7.5% in the previous financial year. The union budget presented this year strongly supports the long-term growth of India's real estate sector through its focus on urban infrastructure and the digital economy. The government's significantly expanded capital expenditure target for the year is expected to generate job opportunities and stimulate higher economic activity.

INDUSTRY STRUCTURE & DEVELOPMENTS:

Financial Year 2023-24 was a milestone year for India's real estate sector, with record-breaking sales and sustained growth. Despite a notable increase in new launches, inventory levels remained stable or decreased in tier-1 cities, highlighting strong demand. The residential segment excelled, driven by stable interest rates, a robust economy, and evolving consumer preferences. The demand for Commercial office space recovered from slowdown induced by remote work trends and global economic slowdown, while the retail real estate sector experienced a robust revival, surpassing pre-pandemic consumption levels.

In Financial Year 2023-24, the real estate sector saw remarkable growth, driven by strong housing demand, stable interest rates, and a robust economy. Real estate investments in India reached \$5.1 billion, with a substantial portion allocated to land acquisitions, representing 40% of total investments. This trend expanded to tier 2 and tier 3 cities, highlighting real estate's attractiveness as an investment avenue, including options like direct purchases, Real-Estate-Investment-Trusts (REITs), and Mortgage-backed-Securities (MBS).

MUMBAI REAL ESTATE

The Mumbai real estate market experienced robust growth despite of global challenges, retaining its position as the top market by marking the highest sales in eleven years. This surge stemmed from a

positive economic outlook, increased disposable income among buyers, a shift towards larger homes, and a fear of missing out on opportunities in the flourishing market and rising prices. The residential market in Mumbai is poised for continued growth, driven by strong consumer demand fueled by ongoing infrastructural developments, rising affluence, and evolving consumer preferences.

OPPORTUNITIES AND CHALLENGES

Opportunities

As India awaits policy reforms to pick up speed, your Company firmly believes that the demand for Real Estate in a country like India should remain strong in the medium to long term. Your Company's well accepted brand, contemporary architecture, well designed projects in strategic locations, strong balance sheet and stable financial performance even in testing times make it a preferred choice for customers and shareholders. Your Company is ideally placed to further strengthen its development potential by acquiring new land parcels.

Housing Demand

A combination of economic growth, increasing income levels, and the perception that housing prices are stabilizing has led to a notable uptick in the demand for homes. This trend is evident as potential buyers, previously on the sidelines, are now entering the market as first-time homeowners or existing homeowners looking for larger spaces. The shift towards remote and hybrid work models is further influencing the desire for more spacious living arrangements. Employers offering flexible work options continue to be a significant factor in this trend, as it allows employees the freedom to live further from the office, thereby boosting demand for residential properties in various segments.

Sector Consolidation

The current environment in the real estate industry poses challenges to the entry of new competitors. With the trend leaning towards a smaller number of dominant developers in each region, this period of consolidation offers an attractive chance for current real estate firms to meet the increasing demand for housing. The Indian real estate sector, characterized by its highly fragmented nature, has been undergoing a significant consolidation phase for several years. This consolidation has been accelerated by various factors, including the pandemic, which has effectively sidelined less robust participants.

Affordable Housing

The segment of affordable housing remains a pivotal area for developers and a primary focus for the government. As per the new Union budget, a housing for Middle Class scheme is to be launched to encourage the middle class to buy their own houses. Affordable housing continues to remain a significant opportunity for developers and key focus area of the government. We believe that the affordable housing market is projected to experience a flow in demand by an anticipated economic revival and increasing income levels.

THREATS & CHALLENGES

Regulatory Hurdles

Real estate sector is a highly regulated sector and any unfavorable changes in government policies and the regulatory environment can adversely impact the performance of the sector. There are substantial procedural delays with regards to land acquisition, land use, project launches and construction approvals. Retrospective policy changes and regulatory bottlenecks may impact profitability and affect the attractiveness of the sector and companies operating within the sector.

Monetary Tightening and Funding Issues

There has been a contrasting trend in real estate lending over the past few years wherein reputed, low leveraged developers continued to enjoy easy access to liquidity as the lenders remained selective and weaker developers struggled with limited sources of capital. The Reserve Bank of India has so far maintained accommodative stance. Going ahead, we expect to see monetary policy remain tight and gradually ease as the central bank tries to support the economic recovery and also balance inflation. A nascent economic recovery along with rising interest rates could impact the real estate sector in the near term as cost of housing loans shoots up and rise in the cost of funding for the developers, who are already facing margin pressure due to commodity cost inflation.

Other Challenges

While the management of your Company is confident of creating and exploiting the opportunities, it also finds the following challenges:

- Unanticipated delays in project approvals;
- Availability of accomplished and trained labour force;

- Increased cost of manpower;
- Rising cost of construction lead by increase in commodity prices; and
- Over regulated environment

SEGMENT-WISE/FINANCIAL & OPERATIONAL PERFORMANCE

Real Estate Business Overview:

The year 2023 gave a fillip to the upward mobility in India's Real Estate Business. The real estate market has been mounting a recovery in 2023 and has tremendously added to India's growth story. Your Company had achieved reasonable volume of sales from its ongoing projects and was able to add re-development projects to its portfolio during the year and has some in pipeline.

In respect of **"GeeCee Aspira 206"** at New Panvel, the Company received Full Occupancy Certificate (OC) on September 14, 2023. Further, for **"GeeCee Proximus"** project at Chembur, the Company received OC on March 12, 2024. The re-development project at **"Laxmi Kunj"** located at Juhu is progressing as per Schedule time and it is expected to get completed by end of December 31, 2024. Further for **"GeeCee Emerald"** project located at Kharghar, the Company received Full Commencement Certificate (CC) till 40th floors on 23rd April 2024. The project is progressing as per Schedule Time and is expected to get completed by end of December 31, 2027. The Company received CC for Residential cum Commercial project namely **"The Mist – Phase III"** at Karjat on December 27, 2023. The construction of the building has been started and it is expected to get completed by end of June 30, 2028.

Other than the above On-going projects, the Company is continuously working to identify and start newer projects.

Financial Services Business:

The Company has large pool of liquid assets and there exists an opportunity to invest it very efficiently. The Company oversees good opportunities to invest its funds in equity instruments, risk free Inter-Corporate Deposits and interest bearing financial instruments. The Company endeavours to maximize its return on surplus funds, within the parameters of prudent investment norms giving highest regard to the quality of credit risk to its investment/financing portfolio.

OUTLOOK, RISK AND CONCERNS

Outlook

Post-pandemic, developers have moved away from the traditional way of doing business and rightly focused on end-user customer demand with a strong focus on innovation and digital transformation. We believe FY2024-25 will continue the healthy sales momentum backed by solid structural foundation, sustained demand and relatively affordable albeit somewhat higher housing loan rates. Financially strong and reputed developers with superior execution capabilities stand to benefit disproportionately from the ongoing cyclical upturn.

While commodity cost inflation has been persistent and poses a risk to operating margins, the price hikes taken so far by the real estate players have been well absorbed. Interest rate hikes to contain inflation will increase the cost of capital and hurt the weaker players, favouring the already well-capitalized developers like ours. We look forward to adding a large number of projects to our portfolio in FY 2024-25, which is amongst our top priorities and which will enable us to grow rapidly going ahead.

RISKS AND CONCERNS

Market Price Fluctuation

The performance of your Company may be affected by the sales and rental realizations of its projects. These prices are driven by prevailing market conditions, the nature and location of the projects and other factors such as brand, reputation and the design of the projects. Your Company follows a prudent business model and tries to ensure steady cash flow even during adverse pricing scenario.

Sales Volume

The volume of bookings depends on the ability to design projects that will meet customer preferences, getting various approvals in time, general market factors, project launch and customer trust in entering into sale agreements well in advance of receiving possession of the projects. Your Company sells its projects in phases from the time it launches the project, based on the type and scale of the project and depending on market conditions.

Financing Costs

The acquisition of land and development rights needs substantial capital outflow. Inadequate funding

resources and high interest costs may impact regular business and operations. Your Company has always tried to build sufficient reserves resulting out of operating cash flows to take advantage of any land acquisition or development opportunity.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The Company has adequate internal control systems commensurate with the size and nature of its business. Well documented policies, guidelines and procedures to monitor business and operational performance, all of which are aimed at ensuring business integrity and promoting operational efficiency. All assets are safeguarded and protected against loss from unauthorized use or disposition and the transactions are authorized, recorded and reported correctly, financial and other data are reliable for preparing financial information and other data and for maintaining accountability of assets. The internal control is supplemented by extensive programme of internal audits and review by management. The system has been designed to ensure that financial and other records are reliable for preparing financial information and for maintaining accountability of assets. All financial and audit control systems are also reviewed by the Audit Committee of the Board of Directors of the Company. The Audit Committee of the Board reviews the adequacy and effectiveness of the internal control systems and suggests improvements, if any for strengthening them.

KEY FINANCIAL RATIOS

In accordance with SEBI (Listing Obligations and Disclosure Requirements) (Amendment) Regulations, 2018, the details of significant changes (i.e. Change of 25% or more as compared to the immediately previous financial year) in key financial ratios are given below:

Ratios	F.Y. 2023-24	F.Y. 2022-23	Formulae	Explanation
Debtors Turnover	16.19	19.13	Net Credit Sales/ Average Trade Receivables	-
Inventory Turnover	0.16	0.06	Cost of Goods sold/ Average Inventory	Increase in Inventory turnover ratio is majorly on account of Satisfaction of Performance Obligation for Revenue Recognition as per IND-AS 115 in one of our project in the current year as compared to the previous year.

Your Company has also focused on upgrading the IT infrastructure – both in terms of hardware and software. In addition to the existing system, the Company is presently reviewing the process documentation to ensure effectiveness of the controls in all the critical functional areas of the Company.

HUMAN RESOURCES

Your Company's closing headcount for F.Y. 2023-24 were 63. GeeCee Ventures Limited recognizes that its people are key to the success of the organization. Your Company continued to make substantial investments in human capital to meet its growth targets. The Company's business is managed by a team of competent and passionate leaders capable of enhancing your Company's standing in the competitive market. The Company's focus is on unlocking the people potential and further developing their functional, operational and behavioural competencies.

The relations with all employees of the Company remained cordial and there were no significant issues outstanding or remaining unresolved during the year. The Board of Directors and the Management wishes to place on record their appreciation of the efforts put in by all the employees.

We believe that our continued success will depend on ability to attract and retain key personnel with relevant skills and performance.

REPORT ON CORPORATE GOVERNANCE

FOR THE YEAR ENDED MARCH 31, 2024

CORPORATE GOVERNANCE PHILOSOPHY

Corporate governance is an ethically driven business process that is committed to values aimed at enhancing an organizations wealth generating capacity. This is ensured by conducting business with a firm commitment to values, while at the same time, meeting stakeholders' expectations. Corporate governance is the system of internal controls and procedures by which individual companies are managed. It provides a framework that defines the rights, roles, and responsibilities of various groups including management, the board, controlling shareowners, and minority or no controlling shareowners within an organization.

The Company's essential character revolves around values based on transparency, integrity, professionalism and accountability. At the highest level, the Company continuously endeavors to improve upon these aspects on an on-going basis and adopts innovative approaches for leveraging resources, converting opportunities into achievements through proper empowerment and motivation, fostering a healthy growth and development of human resources to take the Company forward. The Company strives to adopt policies and practices that meet the highest ethical standards. Commitment to good governance has a distinctive competitive advantage, enhances trust and creates long-term sustainability. The Company has been guided by the belief that the strong relationship between culture and strategy will consistently produce improved financial performance, better employee engagement, ethical behaviour and stakeholder satisfaction.

It is imperative that business is conducted in a fair and transparent manner. The corporate governance framework ensures effective engagement with various stakeholders and helps the Company evolve with changing times. It oversees business strategies and ensures fiscal accountability, ethical corporate behaviour and fairness to all stakeholders comprising of regulators, employees, customers, vendors, investors and the society at large. The guiding principles and practices are summarised in this Corporate Governance Report. These are articulated through the Company's Code of Conduct for the Board of Directors and Senior Management, Policies and Charters of various Committees of the Board and Company's Disclosure Policies. These Policies seek to focus on the enhancement of long term stakeholder's value without compromising on Ethical Standards and Corporate Social Responsibilities.

A Report on compliance with the Corporate Governance provisions as prescribed under the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations"), as amended from time to time is given herein below:

I. THE GOVERNANCE STRUCTURE:

(n) Dematerialization of shares and liquidity:

The Company's shares are compulsorily traded in dematerialized form and are available for trading on both the Depositories in India viz., NSDL and CDSL. Equity shares representing 99.99% of the Company's Share Capital are dematerialized as on March 31, 2024. The Company's shares are regularly traded on BSE and NSE, in the electronic form.

Benefits of Dematerialization:

Shares held in dematerialized form have several advantages like immediate transfer of shares, faster settlement cycle, faster disbursement of non-cash corporate benefits like rights, etc., lower brokerage, ease in portfolio monitoring, etc. Besides risks associated with physical certificates such as fake certificates, bad deliveries, loss of certificates in transit, get eliminated. Since there are several benefits arising from dematerialization, we sincerely urge all the shareholders who are still holding their shares in physical form to dematerialize the shares at the earliest. SEBI vide its notification dated January 24, 2022 has mandated that all requests for transfer of securities including transmission and transposition requests shall be processed only in dematerialized form. In view of the same and to eliminate all risks associated with physical shares and avail various benefits of dematerialisation. Members are advised to dematerialise the shares held by them in physical form. Members can contact the Company, for assistance in this regard.

Pursuant to Regulation 76 of the SEBI (Depositories and Participants) Regulations, 2018, a Company Secretary in Practice carries out Reconciliation of Share Capital Audit to reconcile the total share capital admitted with NSDL and CDSL and held in physical form, with the issued and listed capital.

This audit is carried out every quarter and the report thereon is submitted to the Stock Exchanges. The audit confirms that the total listed and paid up/ issued share capital is in agreement with the aggregate of the total number of shares in demat form (held by NSDL and CDSL) and in physical form.

As per the provisions of Section 72 of the Act and SEBI Circular, the facility for making nomination is available for the Members in respect of the shares held by them. Members who have not yet registered their nomination are requested to register the same by submitting **Form No. SH-13**. If a Member desires to opt out or cancel the earlier nomination and record a fresh nomination, he/ she may submit the same in **Form ISR-3 or SH-14** as the case may be.

INDEPENDENT AUDITOR’S REPORT

To The Members of
Geecee Ventures Limited
 Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying Standalone Financial Statements of **Geecee Ventures Limited** (“the Company”), which comprise the Balance Sheet as at March 31, 2024, and the Statement of Profit and Loss (including other comprehensive income), Statement of Cash Flows and Statement of Changes in Equity for the year then ended, and notes to the standalone financial statements, including a summary of material accounting policies and other explanatory information. (Herein after referred to as “standalone financial statements”)

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 (“the Act”) in the manner so required and give a true and fair view in conformity with the Indian Accounting Standard (“Ind AS”) prescribed under section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015 as amended, and the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2024, and the profit, total Comprehensive Income, changes in equity & its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the accompanying standalone financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor’s Responsibilities for the Audit of the standalone financial statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI’s Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. This matter was addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on this matter.

We have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matters	Auditor’s response to Key Audit Matters
<p>1. Revenue Recognition</p> <p>The Company’s most significant revenue streams involve sale of residential and commercial units representing 65.15% of the total revenue from operations of the Company.</p>	<p>Our audit procedures included following:</p> <ul style="list-style-type: none"> Evaluating the design and implementation and tested operating effectiveness of key internal controls over revenue recognition.

Revenue is recognised post transfer of control of residential and commercial units to customers for the amount / consideration which the Company expects to receive in exchange for those units. The trigger for revenue recognition is normally completion of the project and receipt of approvals on completion from relevant authorities, post which the contract becomes non-cancellable.

The risk for revenue being recognised in an incorrect period presents a key audit matter due to the financial significance.

- Evaluating the accounting policies adopted by the Company for revenue recognition to check those are in line with the applicable accounting standards and their consistent application to the significant sales contracts.
- Scrutinising the revenue journal entries raised throughout the reporting period and comparing details of a sample of these journals, which met certain risk-based criteria, with relevant underlying documentation.
- Testing timeliness of revenue recognition by comparing individual sample sales transactions to underlying contracts.
- Conducting site visits during the year for selected projects to understand the scope, nature and progress of the projects.
- Considering the adequacy of the disclosures in the standalone financial statements in respect of the judgments taken in recognising revenue for residential and commercial property units in accordance with Ind AS 115.

2. Inventories

Inventories held by the Company comprising of finished goods and construction work in progress represent **39.20%** of the Company's total assets. Inventory may be held for long periods of time before sale, making it vulnerable to reduction in net realizable value (NRV). This could result in an overstatement of the value of inventory when the carrying value is higher than the NRV.

Assessing NRV

NRV is the estimated selling price in the ordinary course of business, less estimated costs necessary to make the sale and estimated costs of completion (in case of construction work-in-progress). The inventory of finished goods and construction work-in-progress is not written down below cost when completed flats / under-construction flats / properties are expected to be sold at or above cost.

For NRV assessment, the estimated selling price is determined for a phase, sometimes comprising multiple units.

The assessment and application of write-down of inventory to NRV are subject to significant judgement by the Company.

Our audit procedures included following:

- Understanding from the Company the basis of estimated selling price for the unsold units and units under construction.
- Evaluating the design and testing operating effectiveness of controls over preparation and update of NRV workings by designated personnel. Testing controls related to Company's review of key estimates, including estimated future selling prices and costs of completion for property development projects.
- Evaluating the Company's judgement with regards to application of write-down of inventory units by auditing the key estimates, data inputs and assumptions adopted in the valuations. Comparing expected future average selling prices with available market conditions such as price range available under industry reports published by reputed consultants and the sales budget plans maintained by the Company.

As such inappropriate assumptions in these judgements can impact the assessment of the carrying value of inventories. Considering the Company's judgement associated with long dated estimation of future market and economic conditions and materiality in the context of total assets of the Company, we have considered assessment of net realizable value of inventory as key audit matter.

- Comparing the estimated construction costs to complete each project with the Company's updated budgets. Re-computing the NRV, on a sample basis, to test inventory units are held at the lower of cost and NRV.

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the Financial Performance highlights, Board Report including Annexures to the Board's Report, Report on Corporate Governance and Other Information, which is expected to be made available to us after that date but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and those charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act, read together with relevant rules issued thereunder and relevant provisions of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors is also responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes

our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has an adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management and Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the Standalone Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of the standalone financial statements that, individually or in aggregate, makes it possible that the economic decision of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the **Annexure-A** a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

Further to our comment in the **Annexure A**, as required by Section 143(3) of the Act, we report that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b) In our opinion, proper books of account as required by law have been kept by the Company, so far as it appears from our examination of those books.
- c) The standalone Balance Sheet, the standalone Statement of Profit and Loss including Other Comprehensive Income, Statement of Cash Flows and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;
- d) In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- e) On the basis of the written representations received from the directors as on March 31, 2024 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2024 from being appointed as a director in terms of Section 164 (2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "**Annexure-B**". Our Report expressed an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
- g) In our opinion and according to the information and explanations given to us, the remuneration paid by the Company to its directors during the current year is in accordance with the provisions of Section 197 of the Act. The remuneration paid to directors does not exceed the limit laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) of the Act which are required to be commented upon by us.
- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements – **Refer Note 35** to the standalone financial statements.
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
 - iv. a) According to the information and explanations given to us, no funds have been advanced/ loaned / invested by the Company to or in any other person(s) or entity(ies), including foreign entities with the understanding, - that the intermediary shall, whether directly or indirectly lend or invest in other person or entities identified in any manner whatsoever by or on behalf of the Company (Ultimate Beneficiaries) and not provided any guarantee, security or the like on behalf of Ultimate Beneficiaries.

- b) According to the information and explanations given to us, no funds have been received by the Company from person(s) or entity(ies), including foreign entities on behalf of the Ultimate Beneficiaries. Further the Company has not provided any guarantee or security to person(s) or entity(ies), including foreign entities on behalf of the Ultimate Beneficiaries.
- c) On the basis of our examination of the books of accounts and following appropriate audit procedures considered reasonable and appropriate to the circumstances, nothing has come to the notice that has caused us to believe that the representations under sub-clause (i) and (ii) of clause contain any material misstatement.
- v. Dividend declared or paid during the year by the Company is in compliance with Section 123 of the Companies Act, 2013.
- vi. Based on our examination which included test checks, the company has used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with.

As proviso to Rule 3 (1) of the Companies (Accounts) Rules, 2014 is applicable from April 1, 2023, reporting under Rule 11 (g) of the Companies (Audit and Auditors) Rules, 2014 on preservation of audit trail as per the statutory requirements for record retention is not applicable for the financial year ended March 31, 2024.

ANNEXURE - B TO THE INDEPENDENT AUDITORS' REPORT

Annexure Referred to in Independent Auditors' Report on the Standalone Financial Statements of Even date to the members of **Geecee Ventures Limited** for the year ended March 31, 2024

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Geecee Ventures Limited** ("the Company") as of March 31, 2024 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting

Meaning of Internal Financial Control over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) Provide reasonable assurance that transactions are recorded as necessary to permit

preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.

Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2024, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Nature and purpose of reserves
1. Capital reserve

Capital reserve was created under the previous GAAP (Indian GAAP) out of the profit earned from a specific transaction of capital nature.

2. Securities premium

Securities premium is used to record the premium on issue of shares. The reserve can be utilised in accordance with the provisions of section 52 of the Companies Act, 2013.

3. Capital redemption reserve

As per the Companies Act, 2013, capital redemption reserve is created when company purchases its own shares out of free reserves or securities premium. A sum equal to the nominal value of the shares so purchased is transferred to capital redemption reserve. The reserve is utilized in accordance with the provisions of section 69 of the Companies Act, 2013.

4. General reserve

The general reserve is a free reserve which is used from time to time to transfer profits from retained earnings for appropriation purposes. As the general reserve is created by a transfer from one component of equity to another and is not an item of other comprehensive income, items included in the general reserve will not be reclassified subsequently to statement of profit and loss.

5. Investment revaluation reserve

This reserve represents the cumulative gains and losses arising on the fair valuation of equity instruments measured at fair value through other comprehensive income, net of amounts reclassified to retained earnings / profit and loss when those assets have been disposed off.

6. Retained Earnings

Surplus are the profits that the Company has earned till date including realised gain / (loss) on items that are fair Valued through other comprehensive income and remeasurements of gratuity and leave liability less any appropriations towards general reserve, dividends or other distributions paid to shareholders.

NOTE 1:**NOTES FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS****1. CORPORATE INFORMATION**

Geecee Ventures Limited ("the Company") was incorporated on February 14, 1984. The Company is engaged in the business of real estate development, financials services & renewable energy. The Company is domiciled in India and is listed on Bombay Stock Exchange Limited (BSE) and The National Stock Exchange of India Limited (NSE). The address of its corporate office is 209-210, Arcadia Building, NCPA Marg, Nariman Point, Mumbai – 400 021.

The standalone financial statements are approved for issue by the Company's Board of Directors on **21st May, 2024**.

2. STATEMENT OF COMPLIANCE & BASIS OF PREPARATION OF FINANCIAL STATEMENTS**Statement of Compliance**

The financial statements of the Company have been prepared in accordance with the Indian Accounting Standards (Ind AS) as notified under section 133 of the Companies Act 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules 2015 issued by Ministry of Corporate Affairs ('MCA') as amended by the Companies (Indian Accounting Standards) Rules, 2016 and other relevant provisions of the Act.

Basis of Preparation

The financial statements have been prepared on a historical cost basis, except for certain financial instruments which are measured at fair values or at amortised cost at the end of each reporting period, as explained in the accounting policies below. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

Functional Currency

The financial statements are presented in Indian rupees, which is also the functional currency of the Company. All financial information presented in Indian rupees has been rounded to the nearest lakhs, unless otherwise stated.

Current versus non-current classification

All assets and liabilities have been classified as current and non-current as per the company's normal operating cycle. The normal operating cycle in respect of operation relating to under construction real estate projects depends on signing of agreement, size of the project, type of development, approvals needed and realization of project into cash and cash equivalents and range from 3 to 6 years. Accordingly project related assets and liabilities have been classified into current and non-current based on operating cycle of respective projects. All other assets and liabilities have been classified into current and non-current based on a period of twelve months.

3. MATERIAL ACCOUNTING POLICIES**3.1 PROPERTY, PLANT & EQUIPMENT (PPE)****Recognition and initial measurement**

Freehold land is carried at historical cost. All other items of property, plant and equipment is stated at cost less accumulated depreciation/amortisation and impairment losses, if any.

Cost comprises of the purchase price and any attributable / allocable cost of bringing the asset to its working condition for its intended use. The cost also includes direct cost and other related incidental expenses. Revenue earned, if any, during trial run of assets is adjusted against cost of the assets. Cost also includes the cost of replacing part of the plant and equipment.

Borrowing costs relating to acquisition / construction / development of tangible assets, which takes substantial period of time to get ready for its intended use are also included to the extent they relate to the period till such assets are ready to be put to use.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other non-current assets.

Subsequent measurement (depreciation and useful lives)

When significant components of property and equipment are required to be replaced at intervals, recognition is made for such replacement of components as individual assets with specific useful life and depreciation, if these components are initially recognised as separate asset. All other repair and maintenance costs are recognised in the statement of profit and loss as incurred.

Depreciation is provided from the date the assets are ready to be put to use, on straight line method as per the useful life of the assets as prescribed under Part C of Schedule II of the Companies Act, 2013 except stated otherwise.

Depreciable Assets	Useful Life
Vehicles	8 & 10 years
Computer	3 years
Office Equipment	5 years
Furniture	10 years
Office Building	60 years
Plant & Machinery (Windmill)	22 years
Plant & Machinery (Construction Equipment)	12 years
Plant & Machinery (Others)*	3 years
Electrical & Lab Equipment	10 years

* Based on technical evaluation, the Management believes that the useful lives as given above best represent the period over which the Management expects to use these assets. Hence, the useful lives for these assets are different from the useful lives as prescribed under Part C of Schedule II of the Companies Act 2013.

Depreciation method, useful life and residual value are reviewed periodically. Leasehold land and improvements are amortised on the basis of duration and other terms of lease.

The carrying amount of PPE is reviewed periodically for impairment based on internal / external factors. An impairment loss is recognised wherever the carrying amount of assets exceeds its recoverable amount. The recoverable amount is the greater of the asset's net selling price and value in use.

De-recognition

PPE are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in the statement of profit and loss in the period of de-recognition.

3.2 REVENUE RECOGNITION

A) Revenue from real estate projects

Pursuant to the application of Ind AS 115 - 'Revenue from Contracts with Customers', the Company has applied following accounting policy for revenue recognition:

Revenue is measured at the fair value of the consideration received / receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government and is net of rebates and discounts.

Revenue is recognised in the income statement to the extent that it is probable that the economic benefits will flow to the Company and the revenue and costs, if applicable, can be measured reliably.

The Company has applied five step models as per Ind AS 115 'Revenue from contracts with customers' to recognize revenue in the standalone financial statements. The Company satisfies a performance obligation and recognises revenue over time, if one of the following criteria is met:

- The customer simultaneously receives and consumes the benefits provided by the Company's performance as the Company performs; or
- The Company's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or
- The Company's performance does not create an asset with an alternative use to the Company and the entity has an enforceable right to payment for performance completed to date

For performance obligations where one of the above conditions is not met, revenue is recognised at the point in time at which the performance obligation is satisfied.

Revenue from real-estate projects is recognised when control over the property has been transferred to the customer. An enforceable right to payment does not arise until the development of the property is completed. Therefore, revenue is recognised at a point in time when the legal title has passed to the customer and the development of the property is completed.

B) Revenue from sale of power

Sale is recognized when the power is delivered by the Company at the delivery point in conformity with the parameters and technical limits and fulfilment of other conditions specified in the Power Purchase Agreement. Sale of power is accounted for as per tariff specified in the Power Purchase Agreement. The sale of power is accounted for net of all local taxes and duties as may be levied on sale of electricity for all electricity made available and sold to customers.

C) Interest Income

For all financial instruments measured at amortised cost, interest income is recognised using the effective interest rate (EIR), which is the rate that exactly discounts the estimated future cash payments or receipts through the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial assets.

D) Dividend Income

Dividend income is recognized when the Company's right to receive payment is established.

E) Gain / (Loss) on sale / fair value of Investments

Financial assets are measured at fair value through profit or loss (FVTPL) or fair value through other comprehensive income (FVOCI), as applicable. For all financial instruments measured at FVTPL, the company recognizes gains/losses on fair value changes of these instruments in Profit & Loss Account (PL), for financial instruments measured through OCI with reclassification option to profit or loss, the company recognizes gains/losses on fair value changes of these instruments in Other Comprehensive Income (OCI) & reclassify it to Profit & Loss (PL) on de-recognition of these instruments & for financial

instruments measured through OCI with non-reclassification option to profit or loss, the company recognizes gains/losses on fair value changes of these instruments in Other Comprehensive Income (OCI).

F) Share in profits of partnership firm / LLP investments

The Company's share in profits from a firm / LLP where the Company is a partner is recognized on the basis of such firm's accounts, as per terms of the partnership deed.

G) Other Income

Other incomes are accounted on accrual basis, except interest on delayed payment by vendors which are accounted on acceptance of the Company's claim.

3.3 FINANCIAL INSTRUMENTS

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

A) Financial assets

Initial measurement

Financial assets are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial assets are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets (other than financial assets at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset. However, trade receivable that do not contain a significant financing component are measured at transaction price.

If the transaction price differs from fair value at initial recognition, the Company will account for such difference as follows:

- (i) if fair value is evidenced by a quoted price in an active market for an identical asset or liability or based on a valuation technique that uses only data from observable markets, then the difference is recognised in profit or loss on initial recognition (i.e. day 1 profit or loss);
- (ii) In all other cases, the fair value will be adjusted to bring it in line with the transaction price (i.e. day 1 profit or loss will be deferred by including it in the initial carrying amount of the asset or liability).

Subsequent measurement

(i) Financial assets at amortised cost

Financial assets are measured at the amortised cost, if both of the following criteria are met:

- a) These assets are held within a business model whose objective is to hold assets for collecting contractual cash flows; and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the EIR method. The losses arising from impairment are recognised in the statement of profit and loss.

(ii) Financial assets at fair value through other comprehensive income (FVTOCI)

Financial assets are classified as FVTOCI if both of the following criteria are met:

- a) These assets are held within a business model whose objective is achieved both by collecting contractual cash flows and selling the financial assets; and

- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

Fair value movements are recognised in the other comprehensive income (OCI). On de-recognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to the statement of profit and loss.

(iii) Financial assets at fair value through profit or loss (FVTPL)

Financial assets are classified as FVTPL if one of the following criteria's are met:

- a) If such financial assets does not meet the criteria for categorization as at amortized cost or as FVTOCI; or
- b) If such financial assets are held for trading.

Gain or losses on changes in fair value of such instruments are recognised in the statement of profit and loss.

(iv) Equity instruments

All equity investments are measured at fair value, with value changes recognised in Statement of Profit and Loss, except for those equity investments for which the Company has elected to present the value changes in 'Other Comprehensive Income'. However, dividend on such equity investments are recognised in Statement of Profit and loss when the Company's right to receive payment is established.

De-recognition

The Company de-recognises a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for de-recognition.

Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is de-recognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not de-recognised.

Impairment of financial assets

The Company follows 'simplified approach' for recognition of impairment loss allowance on Trade receivables. The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime Expected Credit Loss (ECL) at each reporting date, right from its initial recognition.

For recognition of impairment loss on financial assets apart from financial assets fair valued through profit or loss OR other comprehensive income (OCI) and Trade receivables, the Company determines whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the Company reverts to recognizing impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date. ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e. all cash shortfalls), discounted at the original EIR.

B) Financial liabilities
Classification

The Company classifies all financial liabilities as subsequently measured at amortised cost using the EIR method.

Initial measurement

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Subsequent measurement

Interest-bearing loans and borrowings are subsequently measured at amortised cost using the Effective Interest Method (EIR) method. Gains and losses are recognized in Statement of Profit and Loss when the liabilities are derecognized.

For trade and other payables maturing within operating cycle, the carrying amounts approximate the fair value due to the short maturity of these instruments.

Amortised cost is calculated by taking into account any discount or premium on acquisition and transaction cost. The EIR amortization is included as finance costs in the statement of Profit and Loss.

De-recognition

A financial liability (or a part of a financial liability) is de-recognised from the Company's balance sheet when the obligation specified in the contract is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the De-recognition of the original liability and the recognition of a new liability. The difference between the carrying amount of the financial liability derecognized and the consideration paid is recognized in the Statement of Profit and Loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

C) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The Company measures financial instruments at fair value on initial recognition & at each balance sheet date.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

D) Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand, demand deposit and short-term deposits, which are subject to an insignificant risk of changes in value. For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management process.

3.4 INVESTMENT IN SUBSIDIARIES & JOINT VENTURES

Investments in subsidiaries & joint ventures are carried at cost less provision for impairment, if any. Investments in subsidiaries & joint ventures are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the carrying amount of investments exceeds its recoverable amount.

3.5 INCOME TAXES

A) Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities using the tax rates and tax laws that are in force at the reporting date.

Current income tax relating to items recognised outside the statement of profit and loss is recognized outside the statement of profit and loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

The Company offsets current tax assets and current tax liabilities where it has a legally enforceable right to set off the recognised amounts and where it intends either to settle on a net basis, or to realize the assets and settle the liability simultaneously.

B) Deferred tax

Deferred income tax is recognised using the balance sheet approach.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- a) When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction affects neither the accounting profit nor taxable profit or loss.
- b) In respect of taxable temporary differences associated with investments in subsidiaries, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, except:

- a) When the deferred tax asset arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction affects neither the accounting profit nor taxable profit or loss.

Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised.

Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority and the relevant entity intends to settle its current tax assets and liabilities on a net basis.

Deferred tax relating to items recognized outside the statement of profit and loss is recognised outside the statement of profit and loss. Such deferred tax items are recognized in correlation to the underlying transaction either in other comprehensive income or directly in equity.

3.6 IMPAIRMENT OF NON-FINANCIAL ASSETS

An entity assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted market prices or other available fair value indicators.

3.7 INVENTORIES

A) Construction raw material

The construction raw materials are valued at lower of cost or net realisable value. The construction raw materials purchased for construction work issued to the construction work in progress are treated as consumed. The cost is computed on Weighted Average Cost basis.

B) Construction work in progress

The construction work in progress is valued at lower of cost or net realisable value. Cost includes cost of land, development rights, rates and taxes, construction costs, borrowing costs, other direct expenditure, allocated overheads and other incidental expenses.

C) Finished stock of completed projects

Finished stock of completed projects and stock in trade of units is valued at lower of cost or net realisable value.

3.8 PROVISIONS, CONTINGENT LIABILITIES AND CONTINGENT ASSETS

A provision is recognised when:

- i) The Company has a present obligation (legal or constructive) as a result of a past event;
- ii) It is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and
- iii) A reliable estimate can be made of the amount of the obligation.

A disclosure for a contingent liability is made when there is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that may, but probably may not, require an outflow of resources. A contingent liability also arises in extreme cases where there is a probable liability that cannot be recognized because it cannot be measured reliably.

Where there is a possible obligation or a present obligation such that the likelihood of outflow of resources is remote, no provision or disclosure is made.

Contingent asset is disclosed in case a possible asset arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company.

Provisions, contingent liabilities, contingent assets and commitments are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

3.9 EMPLOYEE BENEFITS

A) Short term employee benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages etc. and the expected cost of ex-gratia are recognised in the period in which the employee renders the related service. A liability is recognised for the amount expected to be paid when there is a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

B) Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. The Company makes specified monthly contributions towards Government administered provident fund & employee state insurance scheme. Obligations for contributions to defined contribution plans are recognised as an employee benefit expense in profit or loss in the periods during which the related services are rendered by employees.

C) Defined benefit plans

For defined benefit retirement plans (i.e. gratuity) the cost of providing benefits is determined using the projected unit credit method, with independent actuarial valuations being carried out at the end of each annual reporting period. Re-measurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling and the return on plan assets (excluding interest), is reflected immediately in the statement of financial position with a charge or credit recognised in other comprehensive income in the period in which they occur. Defined benefit costs are categorised as follows:

- Service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements)
- Net interest expense or income; and
- Re-measurement

D) Other employee benefits

Leave encashment is recognised as an expense in the statement of profit and loss account as and when they accrue. The Company determines the liability using the projected unit credit method, with actuarial valuations carried out as at balance sheet date. Actuarial gains and losses are recognized in the statement of other comprehensive income.

3.10 LEASES

The Company as a lessee

The Company assess whether a contract contains a lease at the inception of contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset;

(ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease, and (iii) the Company has the right to direct the use of the asset. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate.

The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company revises the lease term if there is a change in the non-cancellable period of a lease.

The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

Lease payments associated with Low-value & Short term Leases are continued to be recognized as an expense on a straight-line basis over the lease term or another systematic basis if that basis is more representative of the pattern of the lessee's benefit (refer note no 28).

3.11 EARNING PER SHARE

Basic earnings per share is calculated by dividing the net profit / (loss) for the year attributable to equity shareholders (after deducting preference dividends and attributable taxes) by weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit / (loss) for the year attributable to equity shareholders and the weighted average numbers of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

The weighted average number of equity shares outstanding during the year is adjusted for events of bonus issue and buy back.

4. USE OF JUDGMENTS AND ESTIMATES

The preparation of financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities, income, expenses and disclosures of contingent assets and liabilities at the reporting date. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

Estimates and underlying assumptions are reviewed at each reporting date. Any revision to accounting estimates and assumptions are recognised prospectively i.e. recognised in the period in which the estimate is revised and future periods affected.

The following are significant management judgements, estimates and assumptions in applying the accounting policies of the Company that have a significant effect on the financial statements.

A) Revenue Recognition

Ind AS 115 requires entities to exercise judgement, taking into consideration all of the relevant facts and circumstances when applying each step of the model to contracts with their customers. The Company has evaluated and generally concluded that the recognition of revenue over the period of time criteria are not met owing to non-enforceable right to payment for performance completed to date and, therefore, recognises revenue at a point in time. The Company has further evaluated and concluded that based on the analysis of the rights and obligations under the terms of the contracts relating to the sale of property, the revenue is to be recognised at a point in time when control transfers which coincides with receipt of Occupation Certificate.

B) Classification of property

The Company determines whether a property is classified as investment property or as inventory:

- i) Investment property comprises land and buildings that are not occupied for use by, or in the operations of, the Company, nor for sale in the ordinary course of business, but are held primarily to earn rental income and capital appreciation. These buildings are held for capital appreciation and are not intended to be sold in the ordinary course of business.
- ii) Inventory comprises property that is held for sale in the ordinary course of business. Principally these are properties that the Company develops and intends to sell.

C) Classification of assets and liabilities into current and non-current

The management classifies the assets and liabilities into current and non-current categories based on the operating cycle of the respective business / projects.

D) Recognition of deferred tax assets

The extent to which deferred tax assets can be recognised is based on an assessment of the probability of the Company's future taxable income against which the deferred tax assets can be utilized.

E) Impairment of assets

In assessing impairment, management estimates the recoverable amounts of each asset or CGU (in case of non-financial assets) based on expected future cash flows and uses an estimated interest rate to discount them. Estimation relates to assumptions about future cash flows and the determination of a suitable discount rate.

F) Useful lives of depreciable / amortisable assets (Property, plant and equipment, intangible assets and investment property)

Management reviews its estimate of the useful lives of depreciable / amortisable assets at each reporting date, based on the expected usage of the assets. Uncertainties in these estimates relate to technical and economic obsolescence that may change the usage of certain assets.

G) Defined benefit obligation

The cost of defined benefit gratuity plan and the present value of the gratuity obligation along with leave salary are determined using actuarial valuations. An actuarial valuation involves making various assumptions such as standard rates of inflation, mortality, discount rate, attrition rates and anticipation of future salary increases. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

H) Fair value measurements

Management applies valuation techniques to determine the fair value of financial instruments (where active market quotes are not available) and non-financial assets. This involves developing estimates and assumptions consistent with how market participants would price the instrument /assets. Management bases its assumptions on observable data as far as possible but this may not always be available. In that case management uses the best relevant information available. Estimated fair values may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date.

I) Provisions

The timing of recognition and quantification of the liability (including litigations) requires the application of judgement to existing facts and circumstances, which can be subject to change. The carrying amounts of provisions and liabilities are reviewed regularly and revised to take account of changing facts and circumstances.

B. Fair valuation techniques

The fair value of cash and cash equivalents, other bank balances, trade receivable, other financial assets, trade payables and other financial liabilities approximate their carrying amount.

The fair values of investments in mutual fund units is based on the Net Asset Value ('NAV') as stated by the issuers of these mutual fund units in the published statements as at reporting date.

The fair values of quoted investment in equity shares is based on the closing price on recognized stock exchange of respective investment as at the reporting date.

The fair value of the remaining financial instruments is determined using discounted cash flow analysis.

D. Financial risk management

The Company has exposure to the following risks arising from financial instruments:

- Credit risk
- Liquidity risk and
- Market risk

Risk management framework

The Company's Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Board of Directors is responsible for developing and monitoring the Company's risk management policies. The committee reports regularly to the Board of Directors on its activities.

The Company's risk management policies are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities.

I) Credit risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is primarily from receivables from customers, investment in various instruments and loans.

Trade and other receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer pertaining to real estate business & receivables of power generation business. However credit risk with regards to trade receivable is almost negligible in case of its residential sale as the same is due to the fact that Group does not handover possession till entire outstanding is received & also of trade receivable of power sale as the same is backed by the state government.

Investment in various instruments

Credit risk on investment in various instruments is limited as we generally invest in financial institutions with high credit ratings assigned by international and domestic credit rating agencies. Investments primarily include investment in liquid mutual fund units & overnight mutual funds units, quoted equity securities, quoted & unquoted bonds, alternate investment funds, debentures & commercial papers issued by organizations with high credit ratings.

Loans

Credit risk on loans has always been managed by the Company through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business.

The Company uses expected credit loss model to assess the impairment loss or gain. The Company uses a provision matrix to compute the expected credit loss allowance for loans. The provision matrix takes into account available external and internal credit risk factors such as credit ratings from credit rating agencies and the Company's historical experience for customers.

II) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset.

The Company's principal sources of liquidity are cash and cash equivalents and the cash flow that is generated from operations. The Company has no outstanding borrowings. The Company believes that the working capital is sufficient to meet its current requirements.

As at March 31, 2024, the Company had a cash and cash equivalents of ₹ 7,595.46 lakhs, other bank balances of ₹ 34.64 lakhs and current investments of ₹ 2,435.81 lakhs. As at March 31, 2023, the Company had a cash and cash equivalents of ₹ 3,864.51 lakhs, other bank balances of ₹ 19.75 lakhs and current investments of ₹ 1,973.10 lakhs.

Exposure to liquidity risk

The details regarding the contractual maturities of significant financial liabilities as at March 31, 2024 are as follows:

(₹ in Lakhs)

Particulars	Less than 1 Year	1-2 Years	2-4 Years	Total
Trade payables	814.23	-	-	814.23
Other current liabilities	172.48	-	-	172.48

The details regarding the contractual maturities of significant financial liabilities as at March 31, 2023 are as follows:

(₹ in Lakhs)

Particulars	Less than 1 Year	1-2 Years	2-4 Years	Total
Trade payables	216.55	-	-	216.55
Other current liabilities	92.25	-	-	92.25

III) Market risk

Market risk is the risk that changes in market prices – such as interest rates and commodity prices– will affect the Company's income or the value of its holdings of financial instruments. Market risk is attributable to all market risk sensitive financial instruments including payables and debt. We are exposed to market risk primarily related interest rate risk and the market value of certain commodities. Thus, our exposure to market risk is a function of investing activities and revenue generating and operating activities. The objective of market risk management is to avoid excessive exposure to these risks in our revenues and costs.

A) Interest rate risk

Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing investments because of fluctuations in the interest rates. Cash flow interest rate risk is the risk that the future cash flows of floating interest bearing investments will fluctuate because of fluctuations in the interest rates.

The Company does not have any long term external borrowing as on March 31, 2024.

B) Currency risk

Currency risk is not material, as the Company's primary business activities are within India and do not have any exposure in foreign currency.

C) Other price risk

The Company's exposure to equity securities price risk arises from investments held by the Company and classified in the financials as fair value through Other Comprehensive Income and fair value through Profit & Loss. If the equity prices of quoted investments are 10% higher / lower which are fair valued through Other Comprehensive Income, then the Other Comprehensive Income for the year ended March 31, 2024 would increase / decrease by ₹ 1,654.10 lakhs (PY – ₹ 1,535.42 lakhs) respectively with a corresponding increase / decrease in Total Equity of the Company as at 31st March, 2023. Similarly if the equity prices of quoted investments are 10% higher / lower which are fair valued through profit & loss, then the Revenue from Operation for the year ended March 31, 2024 would increase / decrease by ₹ 299.94 lakhs (PY – ₹ 371.66 lakhs) respectively with a corresponding increase / decrease in Total Equity of the Company as at 31st March, 2023. 10% represents management's assessment of reasonably possible change in equity prices.

NOTE 37: RECENT ACCOUNTING PRONOUNCEMENTS

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended March 31, 2024, MCA has not notified any new standards or amendments to the existing standards applicable to the Company.

INDEPENDENT AUDITOR’S REPORT

To The Members of
Geecee Ventures Limited
 Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying Consolidated Financial Statements of **Geecee Ventures Limited** (hereinafter referred to as “the Holding Company”) and its subsidiaries, (Holding Company and its subsidiaries together referred to as “the Group”), which comprise the consolidated balance sheet as at March 31, 2024, and the consolidated statement of profit and loss (including other comprehensive income), consolidated statement of cash flows and the consolidated statement of changes in equity and the for the year then ended, and notes to the consolidated financial statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as “the Consolidated Financial Statements”).

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 (‘the Act’) in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2024, of its consolidated profit and consolidated total other comprehensive income, consolidated changes in equity and consolidated cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor’s Responsibilities for the Audit of the consolidated financial statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (‘ICAI’), and we have fulfilled our other ethical responsibilities in accordance with the provisions of the Act. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the consolidated financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. This matter was addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on this matter.

We have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matters	Auditor’s response to Key Audit Matters
<p>1. Revenue Recognition</p> <p>The Company’s most significant revenue streams involve sale of residential and commercial units representing 63.16% of the total revenue from operations of the Company.</p>	<p>Our audit procedures included following:</p> <ul style="list-style-type: none"> • Evaluating the design and implementation and tested operating effectiveness of key internal controls over revenue recognition. • Evaluating the accounting policies adopted by the Company for revenue recognition to check those are in line with the applicable accounting standards and their consistent application to the significant sales contracts.

Revenue is recognised post transfer of control of residential and commercial units to customers for the amount / consideration which the Company expects to receive in exchange for those units. The trigger for revenue recognition is normally completion of the project and receipt of approvals on completion from relevant authorities, post which the contract becomes non-cancellable.

The risk for revenue being recognised in an incorrect period presents a key audit matter due to the financial significance.

- Scrutinising the revenue journal entries raised throughout the reporting period and comparing details of a sample of these journals, which met certain risk-based criteria, with relevant underlying documentation.
- Testing timeliness of revenue recognition by comparing individual sample sales transactions to underlying contracts.
- Conducting site visits during the year for selected projects to understand the scope, nature and progress of the projects.
- Considering the adequacy of the disclosures in the standalone financial statements in respect of the judgments taken in recognising revenue for residential and commercial property units in accordance with Ind AS 115.

2. Inventories

Inventories held by the Company comprising of finished goods and construction work in progress represent **37.29%** of the Company's total assets. Inventory may be held for long periods of time before sale, making it vulnerable to reduction in net realizable value (NRV). This could result in an overstatement of the value of inventory when the carrying value is higher than the NRV.

Assessing NRV

NRV is the estimated selling price in the ordinary course of business, less estimated costs necessary to make the sale and estimated costs of completion (in case of construction work-in-progress). The inventory of finished goods and construction work-in-progress is not written down below cost when completed flats/under-construction flats /properties are expected to be sold at or above cost.

For NRV assessment, the estimated selling price is determined for a phase, sometimes comprising multiple units.

The assessment and application of write-down of inventory to NRV are subject to significant judgement by the Company.

Our audit procedures included following:

- Understanding from the Company the basis of estimated selling price for the unsold units and units under construction.
- Evaluating the design and testing operating effectiveness of controls over preparation and update of NRV workings by designated personnel. Testing controls related to Company's review of key estimates, including estimated future selling prices and costs of completion for property development projects.
- Evaluating the Company's judgement with regards to application of write-down of inventory units by auditing the key estimates, data inputs and assumptions adopted in the valuations. Comparing expected future average selling prices with available market conditions such as price range available under industry reports published by reputed consultants and the sales budget plans maintained by the Company.

As such inappropriate assumptions in these judgements can impact the assessment of the carrying value of inventories. Considering the Company's judgement associated with long dated estimation of future market and economic conditions and materiality in the context of total assets of the Company, we have considered assessment of net realizable value of inventory as key audit matter.

- Comparing the estimated construction costs to complete each project with the Company's updated budgets. Re-computing the NRV, on a sample basis, to test inventory units are held at the lower of cost and NRV.

Information Other than the Consolidated Financial Statements and Auditor's Report thereon

The Holding Company's Board of Directors are responsible for the other information. The other information comprises the information included in the Holding Company's Annual Report, but does not include the standalone and consolidated financial statements and our auditors' report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information, compare with the consolidated financial statements of the subsidiary companies audited by the other auditors, to the extent it relates to these entities and, in doing so, place reliance on the work of the other auditors and consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. Other information so far as it relates to the subsidiaries, is traced from their financial statements audited by other auditors.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Management's and Board of Directors' responsibilities for the Consolidated Financial Statements

The Holding Company's management and Board of Directors are responsible for the preparation and presentation of these consolidated financial statements in terms of the requirements of the Act that give a true and fair view of the consolidated state of affairs, consolidated profit/loss and other comprehensive income, consolidated statement of changes in equity and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. The respective Management and Board of Directors of the entities included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of each entity and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective management and Board of Directors of the entities included in the Group are responsible for assessing the ability of each entity to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the entity or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the entities included in the Group is responsible for overseeing the financial reporting process of each entity.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the entity has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting in preparation of consolidated financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the appropriateness of this assumption. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group (Holding company and subsidiaries) to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the Financial Statements of such entities or business activities included in the consolidated financial statements of which we are the Independent Auditors. For the other entities or business activities included in the consolidated financial statements, which have been audited by other Auditors, such other Auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance of the Holding Company and such other entities included the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

We did not audit the financial statements and other financial information of the four subsidiaries included in the consolidated financial statements, whose financial statements reflect total assets of Rs.579.71 lakhs as at March 31, 2024, total income (before consolidation adjustment) of Rs. 30.66 lakhs, total net profit/(loss) after tax (before consolidation adjustment) of Rs. (8.58) lakhs and total comprehensive income/(loss) (before consolidation adjustment) of Rs. (8.58) lakhs for the year ended March 31, 2024 and net cash outflows of Rs. 3.61 lakhs for the year ended March 31, 2024, as considered in the Statement. These financial statements subsidiaries have been audited by other auditor whose reports have been furnished to us by the Management and our opinion and conclusion on the Statement, in so far as it relates to the amounts and disclosures included in respect of this subsidiary is based solely on the reports of the other auditor and the procedures performed by us as stated under Auditor's Responsibilities section above.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditor.

Report on Other Legal and Regulatory Requirements

- vi. Based on our examination which included test checks and that performed by the respective auditors of the subsidiaries, associates and joint ventures/joint operations which are companies incorporated in India whose financial statements have been audited under the Act, the company, subsidiaries, associates and joint ventures/joint operations have used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of audit trail being tampered with.

As proviso to Rule 3 (1) of the Companies (Accounts) Rules, 2014 is applicable from April 1, 2023, reporting under Rule 11 (g) of the Companies (Audit and Auditors) Rules, 2014 on preservation of audit trail as per the statutory requirements for record retention is not applicable for the financial year ended March 31, 2024.

- i. With respect to the matters specified in paragraphs 3(xxi) and 4 of the Companies (Auditor's Report) Order, 2020 (the "Order"/ "CARO") issued by the Central Government in terms of Section 143(11) of the Act, to be included in the Auditor's report, according to the information and explanations given to us, and based on the CARO reports issued by us for the Company and its subsidiaries included in the consolidated Financial statements of the Company, to which reporting under CARO is applicable, we report that there are no qualifications or adverse remarks in these CARO reports.

ANNEXURE “A” TO THE INDEPENDENT AUDITOR’S REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

In conjunction with our audit of the consolidated Financial statements of **Geecee Ventures Limited** (“the Holding Company”) as of March 31, 2024, We have audited the internal financial controls with reference to the financial statements of the Holding Company and its subsidiaries, which are incorporated in India as of that date.

Management’s Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding company and its subsidiaries which are incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control with reference to financial statements criteria established by the Holding company and its subsidiaries, which are incorporated in India, considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (“the Guidance Note”) issued by the Institute of Chartered Accountants of India (“ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective entity’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor’s Responsibility

Our responsibility is to express an opinion on the internal financial controls with reference to financial statements of the Holding Company and its subsidiaries which are incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by the ICAI and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial control system with reference to financial statements of the Holding Company and its subsidiaries which are incorporated in India.

Meaning of company’s internal financial control over financial reporting

A company’s internal financial control with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control with reference to consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance

that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors referred to in the Other Matters paragraph below, the Holding Company and its subsidiary companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2024, based on the criteria for internal financial control over financial reporting established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to one subsidiary companies which are entities incorporated in India, is based solely on the corresponding reports of the auditors of such companies incorporated in India.

Our opinion is not modified in respect of the above matters.

Nature and purpose of reserves
1. Capital reserve

Capital reserve was created under the previous GAAP (Indian GAAP) out of the profit earned from a specific transaction of capital nature.

2. Securities premium

Securities premium is used to record the premium on issue of shares. The reserve can be utilised in accordance with the provisions of section 52 of the Companies Act, 2013.

3. Capital redemption reserve

As per The Companies Act, 2013, capital redemption reserve is created when company purchases its own shares out of free reserves or securities premium. A sum equal to the nominal value of the shares so purchased is transferred to capital redemption reserve. The reserve is utilized in accordance with the provisions of section 69 of the Companies Act, 2013.

4. General reserve

The general reserve is a free reserve which is used from time to time to transfer profits from retained earnings for appropriation purposes. As the general reserve is created by a transfer from one component of equity to another and is not an item of other comprehensive income, items included in the general reserve will not be reclassified subsequently to statement of profit and loss.

5. Investment revaluation reserve

This reserve represents the cumulative gains and losses arising on the fair valuation of equity instruments measured at fair value through other comprehensive income, net of amounts reclassified to retained earnings / profit and loss when those assets have been disposed off.

6. Retained Earnings

Surplus are the profits that the Group has earned till date including realised gain / (loss) on items that are fair valued through Other Comprehensive Income and remeasurements of gratuity and leave liability less any appropriations towards general reserve, dividends or other distributions paid to shareholders.

7. Special Reserve

As per Section 45-IC of Reserve Bank of India Act, 1934 every NBFC is required to transfer a sum not less than 20% of its net profits before declaring any dividend to reserve fund & accordingly the subsidiary named GeeCee Fincap Limited-NBFC has transferred in current year ₹ 97.55 Lakhs (Previous year ₹ 132.79 Lakhs) to Special Reserve.

Basis of Preparation

The consolidated financial statements have been prepared on a historical cost basis, except for certain financial instruments which are measured at fair values or at amortized cost at the end of each reporting period, as explained in the accounting policies below. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

Functional Currency

The consolidated financial statements are presented in Indian rupees, which is also the functional currency of the Group. All financial information presented in Indian rupees has been rounded to the nearest lakhs, unless otherwise stated.

Current versus non-current classification

All assets and liabilities have been classified as current and non-current as per the Group’s normal operating cycle. The normal operating cycle in respect of operation relating to under construction real estate projects depends on signing of agreement, size of the project, type of development, approvals needed and realization of project into cash and cash equivalents and range from 3 to 6 years. Accordingly project related assets and liabilities have been classified into current and non-current based on operating cycle of respective projects. All other assets and liabilities have been classified into current and non-current based on a period of twelve months.

3. BASIS OF CONSOLIDATION

The consolidated financial statements comprise of financial statements of the Company and its subsidiaries and joint arrangements for which the Group fulfills the criteria pursuant to Ind AS 110 and joint arrangements within the scope of Ind AS 111.

3.1 SUBSIDIARIES

Subsidiaries are entities controlled by the Company. Control exists if and only if all of the following conditions are satisfied –

- (a) Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee);
- (b) Exposure or rights to variable returns from its involvement with the investee; and
- (c) The ability to use its power over the investee to affect the amount of the investors' returns.

Subsidiaries are consolidated from the date control commences until the date control ceases.

3.2 MANNER OF CONSOLIDATION

The financial statements of the subsidiaries are consolidated on a line-by-line basis and intra-group balances and transactions including unrealized gain / loss from such transactions are eliminated upon consolidation. Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. Non-controlling interests which represent part of the net profit or loss and net assets of subsidiaries that are not, directly or indirectly, owned or controlled by the company, are excluded.

Changes in the Company's interests in subsidiaries that do not result in a loss of control are accounted for as equity transactions. The carrying amount of the company's interests and the non-controlling interests are adjusted to reflect changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity and attributed to owners of the Company.

Details of subsidiaries considered in the consolidated financial statements are as under:

Name of the Entities & Country of Incorporation	Relationship with the Entities	% of holding as on 31st March 2024	% of holding as on 31st March 2023
Geecee Fincap Limited (India)	Direct subsidiary	100%	100%
Geecee Business Private Limited (India)	Direct subsidiary	63%	63%
Geecee Comtrade LLP (India)	Direct subsidiary	99%	99%
Retold Farming Private Limited (India)	Indirect subsidiary	100%	100%
Neptune Farming Private Limited (India)	Indirect subsidiary	100%	100%
Oldview Agriculture Private Limited (India)	Indirect subsidiary	100%	100%

3.3 BUSINESS COMBINATIONS AND GOODWILL ARISING ON BUSINESS COMBINATION

Business Combinations are accounted for using the acquisition method.

The cost of an acquisition is measured as the aggregate of the consideration transferred, measured at acquisition date fair value and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition related costs are recognized in the statement of profit and loss as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognized at their acquisition date fair values. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition date fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable. Contingent liability is remeasured at subsequent reporting dates in accordance with IND AS 109 Financial Instruments or IND AS 37 Provisions, Contingent Liabilities and Contingent Assets, with the corresponding gain or loss being recognized in profit or loss.

Business combinations arising from transfers of interests in entities that are under the common control are accounted at historical cost. The difference between any consideration given and the aggregate historical carrying amounts of assets and liabilities of the acquired entity are recorded in shareholders' equity.

Goodwill represents the cost of acquired business as established at the date of acquisition of the business in excess of the acquirer's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities less accumulated impairment losses, if any. Goodwill is tested for impairment annually or when events or circumstances indicate that the implied fair value of goodwill is less than its carrying amount. Any impairment loss for goodwill is recognized in the statement of profit and loss. An impairment loss recognized for goodwill is not reversed in subsequent periods.

3.4 JOINT ARRANGEMENTS – JOINT VENTURES

A joint venture is a type of joint arrangement whereby the parties have joint control of the arrangement and have rights to the net assets of the arrangement. Joint Control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The Group's investments in joint venture are accounted for using the equity method. Under the equity method, the investment in a joint venture is initially recognized at cost. The carrying amount of the investment is adjusted to recognize changes in the Group's share of net assets of joint venture since the acquisition date. Goodwill relating to the joint venture is included in the carrying amount of the investment and is not tested for impairment individually.

Unrealized gains and losses resulting from transactions between the Group and the joint venture are eliminated to the extent of the interest in the joint venture.

The financial statements of joint ventures are prepared for the same reporting period as of the Group. Wherever necessary, adjustments are made to bring the accounting policies in line with those of the Group.

4. MATERIAL ACCOUNTING POLICIES

4.1 PROPERTY, PLANT & EQUIPMENT (PPE)

Recognition and initial measurement

Freehold land is carried at historical cost. All other items of property, plant and equipment is stated at cost less accumulated depreciation / amortization and impairment losses, if any.

Cost comprises of the purchase price and any attributable / allocable cost of bringing the asset to its working condition for its intended use. The cost also includes direct cost and other related incidental expenses. Revenue earned, if any, during trial run of assets is adjusted against cost of the assets. Cost also includes the cost of replacing part of the plant and equipment.

Borrowing costs relating to acquisition / construction / development of tangible assets, which takes substantial period of time to get ready for its intended use are also included to the extent they relate to the period till such assets are ready to be put to use.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other non-current assets.

Subsequent measurement (depreciation and useful lives)

When significant components of property and equipment are required to be replaced at intervals, recognition is made for such replacement of components as individual assets with specific useful life and depreciation, if these components are initially recognized as separate asset. All other repair and maintenance costs are recognized in the statement of profit and loss as incurred.

Depreciation is provided from the date the assets are ready to be put to use, on straight line method as per the useful life of the assets as prescribed under Part C of Schedule II of the Companies Act, 2013 except stated otherwise.

Depreciable Assets	Useful Life
Vehicles	8 & 10 years
Computer	3 years
Office Equipment	5 years
Furniture	10 years
Office Building	60 years
Office Premises**	30 years
Plant & Machinery (Windmill)	22 years
Plant & Machinery (Construction Equipment)	12 years
Plant & Machinery (Others)*	3 years
Electrical & Lab Equipment	10 years

* Based on technical evaluation, the Management believes that the useful lives as given above best represent the period over which the Management expects to use these assets. Hence, the useful lives for these assets are different from the useful lives as prescribed under Part C of Schedule II of the Companies Act 2013.

**Residual life of office Premises is taken as 30 years from 1st April, 2014 based on structural audit of office premises from structural engineer.

Depreciation method, useful life and residual value are reviewed periodically. Leasehold land and improvements are amortized on the basis of duration and other terms of lease.

The carrying amount of PPE is reviewed periodically for impairment based on internal / external factors. An impairment loss is recognized wherever the carrying amount of assets exceeds its recoverable amount. The recoverable amount is the greater of the asset's net selling price and value in use.

De-recognition

PPE are derecognized either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in the statement of profit and loss in the period of de-recognition.

4.2 INVESTMENT PROPERTY

Recognition and initial measurement

Investment properties are properties held to earn rentals or for capital appreciation or both. Investment properties are measured initially at cost, including transaction costs. The cost comprises purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group.

The Group measures investment property using cost based measurement.

Subsequent measurement

The carrying amount of Investment Property is reviewed periodically for impairment based on internal / external factors. An impairment loss is recognized wherever the carrying amount of assets exceeds its recoverable amount. The recoverable amount is the greater of the asset's net selling price and value in use.

When significant components of Investment Properties are required to be replaced at intervals, recognition is made for such replacement of components as individual assets with specific useful life and depreciation, if these components are initially recognized as separate asset. All other repair and maintenance costs are recognized in the statement of profit and loss as incurred.

De-recognition

Investment properties are derecognized either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in the statement of profit and loss in the period of de-recognition.

4.3 REVENUE RECOGNITION

A) Revenue from real estate projects

Pursuant to the application of Ind AS 115 - 'Revenue from Contracts with Customers', the group has applied following accounting policy for revenue recognition:

Revenue is measured at the fair value of the consideration received / receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government and is net of rebates and discounts.

Revenue is recognized in the income statement to the extent that it is probable that the economic benefits will flow to the group and the revenue and costs, if applicable, can be measured reliably.

The Group has applied five step models as per Ind AS 115 'Revenue from contracts with customers' to recognize revenue in the consolidated financial statements. The Group satisfies a performance obligation and recognizes revenue over time, if one of the following criteria is met:

- The customer simultaneously receives and consumes the benefits provided by the group's performance as the Group performs; or
- The Group's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or
- The Group's performance does not create an asset with an alternative use to the group and the entity has an enforceable right to payment for performance completed to date

For performance obligations where one of the above conditions is not met, revenue is recognized at the point in time at which the performance obligation is satisfied.

Revenue from real-estate projects is recognized when control over the property has been transferred to the customer. An enforceable right to payment does not arise until the development of the property is completed. Therefore, revenue is recognized at a point in time when the legal title has passed to the customer and the development of the property is completed.

B) Revenue from sale of power

Sale is recognized when the power is delivered by the Group at the delivery point in conformity with the parameters and technical limits and fulfillment of other conditions specified in the Power Purchase Agreement. Sale of power is accounted for as per tariff specified in the Power Purchase Agreement. The sale of power is accounted for net of all local taxes and duties as may be leviable on sale of electricity for all electricity made available and sold to customers.

C) Interest Income

For all financial instruments measured at amortized cost, interest income is recognized using the effective interest rate (EIR), which is the rate that exactly discounts the estimated future cash payments or receipts through the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial assets.

D) Dividend Income

Dividend income is recognized when the Group's right to receive payment is established.

E) Gain / (Loss) on sale / fair value of Investments

Financial assets are subsequently measured at fair value through profit or loss (FVTPL) or fair value through other comprehensive income (FVOCI), as applicable. For all financial instruments measured at FVTPL, the group recognizes gains/losses on fair value changes of these instruments in Profit & Loss (PL), for financial instruments measured through OCI with reclassification option to profit or loss, the group recognizes gains/losses on fair value changes of these instruments in Other Comprehensive Income (OCI) & reclassify it to Profit & Loss (PL) on derecognition of these instruments & for financial instruments measured through OCI with non-reclassification option to profit or loss, the group recognizes gains / losses on fair value changes of these instruments in Other Comprehensive Income (OCI).

F) Other Income

Other incomes are accounted on accrual basis, except interest on delayed payment by vendors which are accounted on acceptance of the Group's claim.

4.4 FINANCIAL INSTRUMENTS

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

A) Financial assets
Initial measurement

Financial assets are recognized when the Group becomes a party to the contractual provisions of the instrument. Financial assets are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets (other than financial assets at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset. However, trade receivable that do not contain a significant financing component are measured at transaction price.

If the transaction price differs from fair value at initial recognition, the Group will account for such difference as follows:

- (i) if fair value is evidenced by a quoted price in an active market for an identical asset or liability or based on a valuation technique that uses only data from observable markets, then the difference is recognized in profit or loss on initial recognition (i.e. day 1 profit or loss);
- (ii) in all other cases, the fair value will be adjusted to bring it in line with the transaction price (i.e. day 1 profit or loss will be deferred by including it in the initial carrying amount of the asset or liability).

Subsequent measurement
(i) Financial assets at amortized cost

Financial assets are measured at the amortized cost, if both of the following criteria are met:

- a) These assets are held within a business model whose objective is to hold assets for collecting contractual cash flows; and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortized cost using the EIR method. The losses arising from impairment are recognized in the statement of profit and loss.

(ii) Financial assets at fair value through other comprehensive income (FVTOCI)

Financial assets are classified as FVTOCI if both of the following criteria are met:

- a) These assets are held within a business model whose objective is achieved both by collecting contractual cash flows and selling the financial assets; and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

Fair value movements are recognized in the other comprehensive income (OCI). On de-recognition of the asset, cumulative gain or loss previously recognized in OCI is reclassified from the equity to the statement of profit and loss.

(iii) Financial assets at fair value through profit or loss (FVTPL)

Financial assets are classified as FVTPL if one of the following criteria's is met:

- a) If such financial assets does not meet the criteria for categorization as at amortized cost or as FVTOCI; or
- b) If such financial assets are held for trading.

Gain or losses on changes in fair value of such instruments are recognized in the statement of profit and loss.

(iv) Equity instruments

All equity investments are measured at fair value, with value changes recognised in Statement of Profit and Loss, except for those equity investments for which the Group has elected to present the value changes in 'Other Comprehensive Income'. However, dividend on such equity investments are recognised in Statement of Profit and loss when the Group's right to receive payment is established.

De-recognition

The Group derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for de-recognition.

Where the entity has transferred an asset, the Group evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is de-recognized. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not de-recognized.

Impairment of financial assets

The Group follows 'simplified approach' for recognition of impairment loss allowance on Trade receivables. The application of simplified approach does not require the Group to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime Expected Credit Loss (ECL) at each reporting date, right from its initial recognition.

For recognition of impairment loss on financial assets apart from financial assets fair valued through profit or loss OR other comprehensive income (OCI) and Trade receivables, the Group determines whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the Group reverts to recognizing impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date. ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the entity expects to receive (i.e. all cash shortfalls), discounted at the original EIR.

B) Financial liabilities**Classification**

The Group classifies all financial liabilities as subsequently measured at amortized cost using the EIR method.

Initial measurement

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Subsequent measurement

Interest-bearing loans and borrowings are subsequently measured at amortized cost using the Effective Interest Method (EIR) method. Gains and losses are recognized in Statement of Profit and Loss when the liabilities are derecognized.

For trade and other payables maturing within operating cycle, the carrying amounts approximate the fair value due to the short maturity of these instruments.

Amortized cost is calculated by taking into account any discount or premium on acquisition and transaction cost. The EIR amortization is included as finance costs in the statement of Profit and Loss.

De-recognition

A financial liability (or a part of a financial liability) is derecognized from the Group's balance sheet when the obligation specified in the contract is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the De-recognition of the original liability and the recognition of a new liability. The difference between the carrying amount of the financial liability derecognized and the consideration paid is recognized in the Statement of Profit and Loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

C) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The Group measures financial instruments at fair value on initial recognition & at each balance sheet date.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs. All assets and liabilities for which fair value is measured or disclosed in

the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

D) Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand, demand deposit and short-term deposits, which are subject to an insignificant risk of changes in value. For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Group's cash management process.

4.5 INCOME TAXES

A) Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities using the tax rates and tax laws that are in force at the reporting date.

Current income tax relating to items recognized outside the statement of profit and loss is recognized outside the statement of profit and loss (either in other comprehensive income or in equity). Current tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity.

The Group offsets current tax assets and current tax liabilities where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the assets and settle the liability simultaneously.

B) Deferred tax

Deferred income tax is recognized using the balance sheet approach.

Deferred tax liabilities are recognized for all taxable temporary differences, except:

- a) When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction affects neither the accounting profit nor taxable profit or loss.
- b) In respect of taxable temporary differences associated with investments in subsidiaries, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for all deductible temporary differences, except:

- a) When the deferred tax assets arise from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction affects neither the accounting profit nor taxable profit or loss.

Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized.

Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority and the relevant entity intends to settle its current tax assets and liabilities on a net basis.

Deferred tax relating to items recognized outside the statement of profit and loss is recognized outside the statement of profit and loss. Such deferred tax items are recognized in correlation to the underlying transaction either in other comprehensive income or directly in equity.

Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be received or settled.

4.6 IMPAIRMENT OF NON-FINANCIAL ASSETS

An entity assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating units (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted market prices or other available fair value indicators.

4.7 INVENTORIES

A) Construction raw material

The construction raw materials are valued at lower of cost or net realizable value. The construction raw materials purchased for construction work issued to the construction work in progress are treated as consumed. The cost is computed on Weighted Average Cost basis.

B) Construction work in progress

The construction work in progress is valued at lower of cost or net realizable value. Cost includes cost of land, development rights, rates and taxes, construction costs, borrowing costs, other direct expenditure, allocated overheads and other incidental expenses.

C) Finished stock of completed projects

Finished stock of completed projects and stock in trade of units is valued at lower of cost or net realizable value.

4.8 PROVISIONS, CONTINGENT LIABILITIES AND CONTINGENT ASSETS

A provision is recognized when:

- i) The Group has a present obligation (legal or constructive) as a result of a past event;
- ii) It is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and
- iii) A reliable estimate can be made of the amount of the obligation.

A disclosure for a contingent liability is made when there is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that may, but probably may not, require an outflow of resources. A contingent liability also arises in extreme cases where there is a probable liability that cannot be recognized because it cannot be measured reliably.

Where there is a possible obligation or a present obligation such that the likelihood of outflow of resources is remote, no provision or disclosure is made.

Contingent asset is disclosed in case a possible asset arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group.

Provisions, contingent liabilities, contingent assets and commitments are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

4.9 EMPLOYEE BENEFITS

A) Short term employee benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages etc. and the expected cost of ex-gratia are recognized in the period in which the employee renders the related service. A liability is recognized for the amount expected to be paid when there is a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

B) Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. The Group makes specified monthly contributions towards Government administered provident fund & employee state insurance scheme. Obligations for contributions to defined contribution plans are recognized as an employee benefit expense in profit or loss in the periods during which the related services are rendered by employees.

C) Defined benefit plans

For defined benefit retirement plans (i.e. gratuity) the cost of providing benefits is determined using the projected unit credit method, with independent actuarial valuations being carried out at the end of each annual reporting period. Re-measurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling and the return on plan assets (excluding interest), is reflected immediately in the statement of financial position with a charge or credit recognized in other comprehensive income in the period in which they occur. Defined benefit costs are categorized as follows:

- Service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements)
- Net interest expense or income; and
- Re-measurement

D) Other employee benefits

Leave encashment is recognized as an expense in the statement of profit and loss account as and when they accrue. The Group determines the liability using the projected unit credit method, with actuarial valuations carried out as at balance sheet date. Actuarial gains and losses are recognized in the statement of other comprehensive income.

4.10 LEASES

The Group as a lessee

The Group's lease asset classes primarily consist of leases for office premises. The Group assess whether a contract contains a lease at the inception of contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether: (i) the contract involves the use of an identified asset; (ii) the Group has substantially all of the economic benefits from use of the asset through the period of the lease, and (iii) the Group has the right to direct the use of the asset. The Group uses significant judgment in assessing the lease term (including anticipated renewals) and the applicable discount rate.

The Group determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Group is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Group is reasonably certain not to exercise that option. In assessing whether the Group is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Group to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Group revises the lease term if there is a change in the non-cancellable period of a lease.

The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

Lease payments associated with Low-value & Short term Leases are continued to be recognized as an expense on a straight-line basis over the lease term or another systematic basis if that basis is more representative of the pattern of the lessee's benefit (refer note no 33).

4.11 EARNING PER SHARE

Basic earnings per share is calculated by dividing the net profit / (loss) for the year attributable to equity shareholders (after deducting preference dividends and attributable taxes) by weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit / (loss) for the year attributable to equity shareholders and the weighted average numbers of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

The weighted average number of equity shares outstanding during the year is adjusted for events of bonus issue and buy back.

5. USE OF JUDGMENTS AND ESTIMATES

The preparation of financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities, income, expenses and disclosures of contingent assets and liabilities at the reporting date. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

Estimates and underlying assumptions are reviewed at each reporting date. Any revision to accounting estimates and assumptions are recognized prospectively i.e. recognized in the period in which the estimate is revised and future periods affected.

The following are significant management judgments, estimates and assumptions in applying the accounting policies of the Group that have a significant effect on the financial statements.

A) Revenue recognition

Ind AS 115 requires entities to exercise judgment, taking into consideration all of the relevant facts and circumstances when applying each step of the model to contracts with their customers. The Group has evaluated and generally concluded that the recognition of revenue over the period of time criteria are not met owing to non-enforceable right to payment for performance completed to date and, therefore, recognizes revenue at a point in time. The Group has further evaluated and concluded that based on the analysis of the rights and obligations under the terms of the contracts relating to the sale of property, the revenue is to be recognized at a point in time when control transfers which coincides with receipt of Occupation Certificate.

B) Classification of property

The Group determines whether a property is classified as investment property or as inventory:

- i) Investment property comprises land and buildings that are not occupied for use by, or in the operations of, the Group, nor for sale in the ordinary course of business, but are held primarily to earn rental income and capital appreciation. These buildings are held for capital appreciation and are not intended to be sold in the ordinary course of business.
- ii) Inventory comprises property that is held for sale in the ordinary course of business. Principally these are properties that the Group develops and intends to sell.

C) Classification of assets and liabilities into current and non-current

The management classifies the assets and liabilities into current and non-current categories based on the operating cycle of the respective business / projects.

D) Recognition of deferred tax assets

The extent to which deferred tax assets can be recognized is based on an assessment of the probability of the Group's future taxable income against which the deferred tax assets can be utilized.

E) Impairment of assets

In assessing impairment, management estimates the recoverable amounts of each asset or CGU (in case of non-financial assets) based on expected future cash flows and uses an estimated interest rate to discount them. Estimation relates to assumptions about future cash flows and the determination of a suitable discount rate.

F) Useful lives of depreciable / amortizable assets (Property, plant and equipment, intangible assets and investment property)

Management reviews its estimate of the useful lives of depreciable / amortizable assets at each reporting date, based on the expected usage of the assets. Uncertainties in these estimates relate to technical and economic obsolescence that may change the usage of certain assets.

G) Defined benefit obligation

The cost of defined benefit gratuity plan and the present value of the gratuity obligation along with leave salary are determined using actuarial valuations. An actuarial valuation involves making various assumptions such as standard rates of inflation, mortality, discount rate, attrition rates and anticipation of future salary increases. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

H) Fair value measurements

Management applies valuation techniques to determine the fair value of financial instruments (where active market quotes are not available) and non-financial assets. This involves developing estimates and assumptions consistent with how market participants would price the instrument /assets. Management bases its assumptions on observable data as far as possible but this may not always be available. In that case management uses the best relevant information available. Estimated fair values may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date.

I) Provisions

The timing of recognition and quantification of the liability (including litigations) requires the application of judgment to existing facts and circumstances, which can be subject to change. The carrying amounts of provisions and liabilities are reviewed regularly and revised to take account of changing facts and circumstances.

B. Fair valuation techniques

The fair value of cash and cash equivalents, other bank balances, trade receivable, other financial assets, trade payables and other financial liabilities approximate their carrying amount.

The fair values of investments in mutual fund units is based on the net asset value ("NAV") as stated by the issuers of these mutual fund units in the published statements as at reporting date.

The fair values of quoted investment in equity shares is based on the closing price on recognized stock exchange of respective investment as at the reporting date.

The fair value of the remaining financial instruments is determined using discounted cash flow analysis.

D. Financial risk management

The Group has exposure to the following risks arising from financial instruments:

- Credit risk
- Liquidity risk and
- Market risk

Risk management framework

The Group's board of directors has overall responsibility for the establishment and oversight of the Group's risk management framework. The board of the directors is responsible for developing and monitoring the Group's risk management policies. The committee reports regularly to the board of directors on its activities.

The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities.

I) Credit risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is primarily from receivables from customers, investment in various instruments and loans.

Trade and other receivables

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer pertaining to real estate business & receivables of power generation business. However credit risk with regards to trade receivable is almost negligible in case of its residential sale as the same is due to the fact that Group does not handover possession till entire outstanding is received & also of trade receivable of power sale as the same is backed by the state government.

Investment in various instruments

Credit risk on investment in various instruments is limited as we generally invest in financial institutions with high credit ratings assigned by international and domestic credit rating agencies. Investments primarily include investment in liquid mutual fund units, overnight mutual funds units, quoted equity securities, quoted bonds & debentures issued by organizations with high credit ratings.

Loans

Credit risk on loans has always been managed by the Group through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Group grants credit terms in the normal course of business.

The Group uses expected credit loss model to assess the impairment loss or gain. The Group uses a provision matrix to compute the expected credit loss allowance for loans. The provision matrix takes into account available external and internal credit risk factors such as credit ratings from credit rating agencies and the Group's historical experience for customers.

II) Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset.

The Group's principal sources of liquidity are cash and cash equivalents and the cash flow that is generated from operations. The Group has no outstanding borrowings. The Group believes that the working capital is sufficient to meet its current requirements.

As at March 31, 2024, the Group had a cash and cash equivalents of Rs. 7,642.62 lakhs, other bank balances of Rs. 35.89 lakhs and current investments of ₹ 5,976.80 lakhs. As at March 31, 2023, the Group had a cash and cash equivalents of ₹ 3,881.68 lakhs, other bank balances of ₹ 21.05 lakhs and current investments of ₹ 4,184.64 lakhs.

Exposure to liquidity risk

The details regarding the contractual maturities of significant financial liabilities as at March 31, 2024 are as follows:

(₹ in Lakhs)

Particulars	Less than 1 Year	1-2 Years	2-4 Years	Total
Trade payables	818.76	-	-	818.76
Other current liabilities	172.48	-	-	172.48

The details regarding the contractual maturities of significant financial liabilities as at March 31, 2023 are as follows:

(₹ in Lakhs)

Particulars	Less than 1 Year	1-2 Years	2-4 Years	Total
Trade payables	219.16	-	-	219.16
Other current liabilities	93.33	-	-	93.33

III) Market risk

Market risk is the risk that changes in market prices – such as interest rates and commodity prices– will affect the Group's income or the value of its holdings of financial instruments. Market risk is attributable to all market risk sensitive financial instruments including payables and debt. We are exposed to market risk primarily related interest rate risk and the market value of certain commodities. Thus, our exposure to market risk is a function of investing activities and revenue generating and operating activities. The objective of market risk management is to avoid excessive exposure to these risks in our revenues and costs.

A) Interest rate risk

Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing investments because of fluctuations in the interest rates. Cash flow interest rate risk is the risk that the future cash flows of floating interest bearing investments will fluctuate because of fluctuations in the interest rates.

The Group holds portfolio of Bonds which is subject to fair value interest rate risk because of fluctuations in the market interest rates.

Sensitivity analysis

(₹ in Lakhs)

Particulars	Fair Value	Sensitivity to fair value	
		1% increase	1% decrease
Investment in Bonds (FVTPL)	58.18	0.22	-0.22

The Group has no external borrowing as on March 31, 2024.

B) Currency risk

Currency risk is not material, as the Group's primary business activities are within India and do not have any exposure in foreign currency.

C) Other price risk

The Group's exposure to equity securities price risk arises from investments held by the group and classified in the financials as fair value through Other Comprehensive Income and fair value through Profit & Loss. If the equity prices of quoted investments are 10% higher / lower which are fair valued through Other Comprehensive Income, then the Other Comprehensive Income for the year ended March 31, 2024 would increase / decrease by ₹ 1,680.43 lakhs (Previous year – ₹ 1,591.87 lakhs) respectively with a corresponding increase/decrease in Total Equity of the Group as at 31st March, 2023. Similarly if the equity prices of quoted investments are 10% higher / lower which are fair valued through profit & loss, then the Revenue from Operation for the year ended March 31, 2024 would increase / decrease by Rs 299.94 lakhs (Previous year – ₹ 371.66 lakhs) respectively with a corresponding increase / decrease in Total Equity of the Group as at 31st March, 2024. 10% represents management's assessment of reasonably possible change in equity prices.
